Need For Public Online GIS

The need to access local government information often occurs outside of normal office hours. The ability to access Redwood County information such as property boundaries, sales, taxes, drainage ditch tile, DNR buffers, and much more from your home, business, or in the field via computer, tablet, or any mobile device is now available through Beacon™.

Redwood County received assistance with this project from the Blandin Foundation though a Broadband Grant to help fund the creation of this public interactive mapping site.

What is GIS?

Geographic Information System (GIS) is a system designed to capture, store, manipulate, analyze, manage, and present all types of spatial or geographical data. Simply, GIS is information with a location.

What is Beacon™?

Beacon™ is an easy to use interactive online geographic information system (GIS) which allows users to view Redwood County spatial information overlaid on ultra-high resolution aerial photography better than Google Earth. Beacon™ also includes a wide range of tools to help you identify and analyze information, print out property information reports, and create annotated aerial maps of your farm land, hunting land, recreation area, construction area, or any other area of interest that you would like to have a colored map with information.

Everyone can benefit from using Beacon™

This information is all available to the public with advanced subscription options that can improve business efficiency and functionality to all citizens including, but not limited to, General Public, Farmers, Business Owners, Real-estate firms, Attorneys, Surveyors, Financial Services, Contractors, Utility Companies, Marketing, etc.

How to use Beacon:

Search by Owner Name

(Enter any part of the name.)
 (Do not include commas.)
 (Includes only current names.)

Search by Property Address

(Do not include prefixes or suffixes - i.e. Dr, St, Ave, North, etc...)
 (Only the first address will be displayed on parcels with more than one address assigned.)

Search by Parcel Number

(e.g. XXXXXXXXXX)

Township Range Search

 Section:

County Ditch Search
[County Ditch Search](#)

(Above) The search option gives you the capability to look up a property by entering either an owner name, property address, parcel number, or township/section/range. Beacon™ creates a list of results for every property that contains any of the content entered into the search option. Clicking the parcel ID of the property you are inquiring about will generate a parcel report.
