YEAR ENDED DECEMBER 31, 2015

## **Description of the Office of the State Auditor**

The mission of the Office of the State Auditor is to oversee local government finances for Minnesota taxpayers by helping to ensure financial integrity and accountability in local governmental financial activities.

Through financial, compliance, and special audits, the State Auditor oversees and ensures that local government funds are used for the purposes intended by law and that local governments hold themselves to the highest standards of financial accountability.

The State Auditor performs approximately 150 financial and compliance audits per year and has oversight responsibilities for over 3,300 local units of government throughout the state. The office currently maintains five divisions:

**Audit Practice** - conducts financial and legal compliance audits of local governments;

**Government Information** - collects and analyzes financial information for cities, towns, counties, and special districts;

**Legal/Special Investigations** - provides legal analysis and counsel to the Office and responds to outside inquiries about Minnesota local government law; as well as investigates allegations of misfeasance, malfeasance, and nonfeasance in local government;

**Pension** - monitors investment, financial, and actuarial reporting for approximately 700 public pension funds; and

**Tax Increment Financing** - promotes compliance and accountability in local governments' use of tax increment financing through financial and compliance audits.

The State Auditor serves on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employees Retirement Association Board, Minnesota Housing Finance Agency, and the Rural Finance Authority Board.

### INDEPENDENT AUDITOR'S REPORT

Board of County Commissioners  
Redwood County  
Redwood Falls, Minnesota

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Redwood County, Minnesota, as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, as listed in the table of contents.

#### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditor's Responsibility*

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we

express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Redwood County as of December 31, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Emphasis of Matter - Change in Accounting Principle***

As discussed in Note 1 to the financial statements, in 2015 the County adopted new accounting guidance by implementing the provisions of Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, and GASB Statement No. 82, *Pension Issues*, which represents a change in accounting principles. Our opinion is not modified with respect to this matter.

### ***Other Matters***

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Required Supplementary Information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the GASB, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Redwood County's basic financial statements. The supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has

been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated August 4, 2016, on our consideration of Redwood County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Redwood County's internal control over financial reporting and compliance.

**Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Redwood County's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards (SEFA) as required by Title 2 U.S. *Code of Federal Regulations Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) is presented for purposes of additional analysis and is not a required part of the basic financial statements. The SEFA is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the SEFA is fairly stated in all material respects in relation to the basic financial statements as a whole.

**REDWOOD COUNTY  
REDWOOD FALLS, MINNESOTA**

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
DECEMBER 31, 2015  
(Unaudited)**

The Management's Discussion and Analysis (MD&A) provides an overview and analysis of the County's financial activities for the fiscal year ended December 31, 2015. Since this information is designed to focus on the current year's activities, resulting changes, and currently known facts, it should be read in conjunction with the County's basic financial statements that follow this section.

**FINANCIAL HIGHLIGHTS**

- Governmental activities' total net position is \$96,570,906, of which \$76,878,093 is the net investment in capital assets, and \$6,948,411 is restricted to specific purposes. The \$12,744,402 remaining may be used to meet the County's ongoing obligations to citizens and creditors.
- The County's net position increased by \$5,047,524 for the year ended December 31, 2015, after the restatement for Governmental Accounting Standards Board (GASB) Statements 68, 71, and 82. Additional information about the restatement can be found in Note 1.E. A large part of the increase is attributable to the County's net investment in capital assets.
- The net cost of governmental activities for the current fiscal year was \$6,955,464. The net cost was funded by general revenues totaling \$12,002,988.
- Fund balances of the governmental funds increased by \$1,152,698. Most of the increase was due to revenues exceeding expenditures in the General Fund and the Road and Bridge and Solid Waste Special Revenue Funds.
- For the year ended December 31, 2015, the assigned and unassigned fund balance of the General Fund was \$9,953,212, or 118.6 percent of the total General Fund expenditures for the year, an increase of 15.8 percentage points.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This MD&A is intended to serve as an introduction to the basic financial statements. The basic financial statements consist of three parts: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other required supplementary information.

## **Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.

The Statement of Net Position presents information on all assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the County using the accrual basis of accounting, with the difference being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial health of the County is improving or deteriorating. It is important to consider other nonfinancial factors, such as changes in the County's property tax base and the condition of County roads and other capital assets, to assess the overall health of the County.

The Statement of Activities presents the County's governmental activities. Most of the basic services are reported here, including general government, public safety, highways and streets, sanitation, human services, health, culture and recreation, conservation of natural resources, and economic development. Property taxes and state and federal grants finance most of these activities. The County has no business-type activities or discretely presented component units for which the County is legally accountable.

The government-wide financial statements are Exhibits 1 and 2 of this report.

## **Fund Financial Statements**

Fund level financial statements provide detailed information about the significant funds--not the County as a whole. Some funds are required to be established by state law or by bond covenants. However, the County Board establishes some funds to help it control and manage money for a particular purpose or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on how money flows into and out of these funds and the balances left at year-end that are available for spending. These funds are reported using modified accrual accounting. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financial decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County adopts an annual appropriated budget for its General Fund, Road and Bridge Special Revenue Fund, Human Services Special Revenue Fund, Solid Waste Special Revenue Fund, Ditch Special Revenue Fund, Springdale Watershed Special Revenue Fund, and Debt Service Fund. A budgetary comparison schedule has been provided as either required or other supplementary information for each of these funds to demonstrate compliance with this budget.

The basic governmental fund financial statements are Exhibits 3 through 6 of this report.

A proprietary fund is maintained by Redwood County. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses the Internal Service Fund to account for its self-insurance. The service benefits the governmental functions and has been allocated to the governmental activities in the government-wide financial statements.

The basic proprietary fund financial statements are Exhibits 7 through 9 of this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside of the County. Fiduciary funds are not reflected in the government-wide statements because the resources of these funds are not available to support the County's own programs or activities. The County is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All fiduciary activities are reported in a separate Statement of Fiduciary Net Position on Exhibit 10.

## **Notes to the Financial Statements**

Notes to the financial statements provide additional information essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are on pages 32 through 88 of this report.

## **Other Information**

Other information is provided as supplementary information regarding Redwood County's intergovernmental revenue and federal awards programs.

## **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Over time, net position serves as a useful indicator of the County's financial position. The County's assets exceeded liabilities by \$96,570,906 at the close of 2015. The largest portion of the net position (79.6 percent) reflects the County's net investment in capital assets (for example: land, buildings, equipment, and infrastructure such as roads and bridges), less any related outstanding debt used to require those assets. However, it should be noted that these assets are not available for future spending or for liquidating any remaining debt. Comparative data with 2014 is presented.

\*This is the first year the County implemented the new pension accounting and financial reporting standards, GASB Statements 68, 71, and 82. The County had to make a prior year change in accounting principles to record the County's net pension liability and related deferred outflows of resources.

Unrestricted net position--the part of net position that may be used to meet the County's ongoing obligations to citizens and creditors without constraints established by debt covenants, enabling legislation, or other legal requirements--is 13.2 percent of net position.

## Governmental Activities

The County's activities increased net position by 5.5 percent (\$91,523,382 for 2014, after the restatement for GASB Statements 68, 71, and 82, compared to \$96,570,906 for 2015). Key elements in this increase in net position are as follows for 2015, with comparative data for 2014.

## **FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS**

### **Governmental Funds**

The focus of the County's governmental funds is to provide information on short-term inflows, outflows, and the balances left at year-end available for spending. Such information is useful in assessing the County's financing requirements. In particular, unrestricted fund balance may serve as a useful measure of net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, governmental funds reported combined ending fund balances of \$23,109,571, an increase of \$1,152,698 in comparison with the prior year. Of the combined ending fund balances, \$14,904,522 represents assigned and unassigned fund balance which is available for spending at the County's discretion. The remainder of the fund balance is restricted to indicate that it is not available for new spending because it has already been restricted for various reasons either by state law, grant agreements, bond covenants, or is nonspendable or committed.

The General Fund is the main operating fund for the County. At the end of the current fiscal year, it had an assigned and unassigned fund balance of \$9,953,212. As a measure of the General Fund's liquidity, it may be useful to compare assigned and unassigned fund balance to total expenditures. The General Fund's assigned and unassigned fund balance represents 118.6 percent of total General Fund expenditures. The ending fund balance increased by \$567,160 during 2015, primarily due to receiving more revenues than were budgeted and spending less.

The Road and Bridge Special Revenue Fund had an assigned fund balance of \$3,000,064 at fiscal year-end, representing 35 percent of its annual expenditures. The ending fund balance increased \$403,726 during 2015, primarily due to receiving more revenue than was budgeted.

The Human Services Special Revenue Fund had an assigned fund balance of \$722,141 at fiscal year-end.

The Solid Waste Special Revenue Fund had an assigned fund balance of \$295,777 at fiscal year-end. The ending fund balance increased \$274,316 during 2015.

The Ditch Special Revenue Fund had restricted fund balance of \$1,627,547 at fiscal year-end. The ending fund balance decreased \$86,588 during 2015, primarily due to spending more than was budgeted.

The Springdale Watershed Special Revenue Fund balance decreased \$49,298 during 2015. The Springdale Watershed Special Revenue Fund was new in 2013 and was created to account for restricted property tax revenues to be used to improve the watershed district in Springdale Township. The project was completed in 2015.

The Debt Service Fund had restricted fund balance of \$1,016,032 at fiscal year-end. The Debt Service Fund was created in 2008 due to the issuance of bonds for the renovation of the Government Center, remodeling of the Courthouse, and the purchase of equipment. In 2013, new bonds were sold for the construction and remodeling of the Law Enforcement Center.

### Governmental Activities

The County's total revenues were \$23,675,636. Table 1 presents the percent of total County revenues by source for the year ended December 31, 2015.

**Table 1**  
**Total County Revenues**

Table 2 presents the cost and revenue of each program, as well as the County's general revenues.

Total program and general revenues for the County were \$23,675,636, while total expenses were \$18,628,112. This reflects a \$5,047,524 increase in net position for the year ended December 31, 2015.

**Table 2  
Program Revenues, General Revenues, and Expenses**

The cost of all governmental activities this year was \$18,628,112. However, as shown on the Statement of Activities on Exhibit 2, the amount that taxpayers ultimately financed for these activities through County taxes was only \$10,503,509, because some of the cost was paid by those who directly benefited from the programs (\$2,367,111) or by other governments and organizations that subsidized certain programs with grants and contributions (\$9,305,537). The County paid for the remaining “public benefit” portion of governmental activities with general revenues, primarily taxes (some of which could be used only for certain programs) and other revenues, such as grants and contributions not restricted to specific programs and investment income.

Table 3 presents the cost of each of the County’s five largest program functions, as well as each function’s net cost (total cost, less revenues generated by the activity). The net cost shows the financial burden that was placed on the County’s taxpayers by each of these functions.

**Table 3

All others	<u>1,631,282</u>	<u>408,417</u>
Totals	<u>\$ 18,628,112</u>	<u>\$ 6,955,464</u>

**General Fund Budgetary Highlights**

Over the course of the year, the County Board made changes to revise the General Fund budget.

The actual charges to appropriations (expenditures) were \$490,481 less than the final budget amounts. One of the most significant positive variances of \$128,984 occurred in the E-911 system, where the actual expenditures were less than the amount budgeted. Another significant positive variance of \$120,632 occurred in buildings and plant, where the actual expenditures were also less than the amount budgeted.

**CAPITAL ASSETS AND DEBT ADMINISTRATION**

**Capital Assets**

The County’s capital assets for its governmental activities at December 31, 2015, totaled \$83,196,233 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements other than buildings, equipment, and infrastructure. The investment in capital assets increased \$2,318,645, or 2.9 percent, from the previous year. The major capital asset event was:

### Long-Term Debt

The County has net debt at December 31, 2015, of \$7,582,323. The debt is for financing the renovation of the Government Center and remodeling of the Courthouse (15-year term with final payment February 1, 2024). In 2013, the County issued a bond for the construction and remodel of the Law Enforcement Center (15-year term with final payment February 1, 2028) and a bond shared with Renville County for the construction of the joint Recycling Facility (15-year term with final payment February 1, 2028). Other debt is lease agreements for financing squad cars for the Sheriff's Department, copiers for various departments, and a postage machine.

Leased squad cars	78,560	97,724
Leased copiers and postage machine	25,569	31,879
<b>Totals</b>	<b>\$ 7,582,323</b>	<b>\$ 8,165,343</b>

Minnesota statutes limit the amount of debt a county may levy to 3 percent of its total market value. At the end of 2015, the County's outstanding debt was 0.16 percent of its total estimated market value.

Additional information on the County's long-term debt can be found in the notes to the financial statements of this report.

## **ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS**

The County's elected and appointed officials considered many factors when setting the 2016 budget, tax rates, and fees that will be charged for the year.

- The average unemployment rate for Redwood County at the end of 2015 was 4.1 percent and shows no change from one year ago. The state unemployment rate was 3.7 percent. The 2010 County population was 16,059, a decrease of 756 from the 2000 census of 16,815.
- At the end of 2015, Redwood County set its 2016 revenue and expenditure budgets.
- The 2016 property tax levy for the County increased to \$11,373,770, compared to \$10,968,138 in 2015.

## **REQUESTS FOR INFORMATION**

This financial report is designed to provide a general overview of Redwood County's finances. Questions concerning any of the information provided in this report, or requests for additional financial information, should be addressed to the County's Auditor-Treasurer, Jean Price, Redwood County Government Center, 403 South Mill Street, P. DECEMBER 31, 2015**

**Fund balance - total governmental funds (Exhibit 3) \$ 23,109,571**

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds. 83,196,233

Deferred outflows of resources resulting from pension obligations are not available resources and, therefore, are not reported in governmental funds. 728,700

An internal service fund is used by Redwood County to charge the cost of the self-funded insurance programs to functions. The assets and liabilities of the internal service fund are included in the governmental activities in the statement of net position. 622,911

Other long-term assets are not available to pay for current period expenditures and, therefore, are reported as deferred inflows of resources in the governmental funds. 2,511,256

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the governmental funds.

CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE  
GOVERNMENT-WIDE STATEMENT OF ACTIVITIES--GOVERNMENTAL ACTIVITIES  
FOR THE YEAR ENDED DECEMBER 31, 2015**

**Net change in fund balance - total governmental funds (Exhibit 5) \$ 1,189,378**

Amounts reported for governmental activities in the statement of activities are different because:

In the funds, under the modified accrual basis, receivables not available for expenditure are deferred. In the statement of activities, those revenues are recognized when earned. The adjustment to revenue between the fund statements and the statement of activities is the increase or decrease in revenue deferred as unavailable.

Deferred inflows of resources - December 31	\$ 2,511,256	
Deferred inflows of resources - January 1	<u>(1,617,598)</u>	893,658

Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the statement of activities, only the gain or loss on the disposal of capital assets is reported; whereas, in the governmental funds, the proceeds from the sale increase financial resources. The difference is the net book value of the assets disposed of.

Expenditures for general capital assets and infrastructure	\$ 4,903,970	
Net book value of assets disposed of	(61,636)	
Current year depreciation	<u>(2,523,689)</u>	2,318,645

Issuing long-term debt provides current financial resources to governmental funds, while the repayment of debt consumes current financial resources. Neither transaction has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued; whereas, those amounts are deferred and amortized over the life of the debt in the statement of activities.

Principal repayments		
General obligation bonds	\$ 555,000

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

NOTES TO THE FINANCIAL STATEMENTS  
AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2015

1. Summary of Significant Accounting Policies

The County’s financial statements are prepared in accordance with generally accepted accounting principles (GAAP) as of and for the year ended December 31, 2015. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (statements and interpretations). The more significant accounting policies established in GAAP and used by the County are discussed below.

A. Financial Reporting Entity

Redwood County was established February 6, 1862, and is an organized county having the powers, duties, and privileges granted counties by Minn. Stat. § 373.01. As required by accounting principles generally accepted in the United States of America, these financial statements present Redwood County. The County is governed by a five-member Board of Commissioners elected from districts within the County. The Board is organized with a chair and vice chair elected at the annual meeting in January of each year. The County Administrator serves as the clerk of the Board of Commissioners but has no vote.

Blended Component Unit

Blended component units are legally separate organizations that are so intertwined with the County that they are, in substance, the same as the County and, therefore, are reported as if they were part of the County. Redwood County has one blended component unit reported as part of the General Fund.

Component Unit	Component Unit Included in Reporting Entity Because	Separate Financial Statements
Redwood County Economic Development Authority (RCEDA) provides services pursuant to Minn. Stat. §§ 469.090-.1082.	The County appoints all of the RCEDA Board members and is financially responsible for funding its projects.	Separate financial statements are not prepared.

A. Financial Reporting Entity (Continued)

Joint Ventures and Jointly-Governed Organizations

The County participates in several joint ventures described in Note 5.C. The County also participates in jointly-governed organizations described in Note 5.D.

B. Basic Financial Statements

1. Government-Wide Statements

The government-wide financial statements (the statement of net position and the statement of activities) display information about Redwood County. These statements include the financial activities of the overall County government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities, which normally are supported by taxes and intergovernmental revenue, are reported separately.

In the government-wide statement of net position, the governmental activities are presented on a consolidated basis and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The County's net position is reported in three parts: (1) net investment in capital assets, (2) restricted net position, and (3) unrestricted net position. The County first utilizes restricted resources to finance qualifying activities.

The statement of activities demonstrates the degree to which the direct expenses of each function of the County's governmental activities are offset by program revenues. Direct expenses are those clearly identifiable with a specific function or activity. Program revenues include: (1) fees, fines, and charges paid by the recipients of goods, services, or privileges provided by a given function or activity; and (2) grants and contributions restricted to meeting the operational or capital requirements of a particular function or activity. Revenues not classified as program revenues, including all taxes, are presented as general revenues.

B. Basic Financial Statements (Continued)

2. Fund Financial Statements

The fund financial statements provide information about the County's funds, including its fiduciary funds and blended component unit. Separate statements for each fund category--governmental, proprietary, and fiduciary--are presented. The emphasis of governmental and proprietary fund financial statements is on major individual governmental funds, with each displayed as separate columns in the fund financial statements. The County reports all of its governmental funds as major funds.

The County reports the following major governmental funds:

- The General Fund is the County's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.
- The Road and Bridge Special Revenue Fund accounts for restricted revenues from the federal and state government, as well as assigned property tax revenues used for the construction and maintenance of roads, bridges, and other projects affecting County roadways.
- The Human Services Special Revenue Fund accounts for assigned property tax revenues used for economic assistance and community social services programs.
- The Solid Waste Special Revenue Fund accounts for restricted special assessment revenues, miscellaneous revenues, and revenue resources from the state for the costs relating to disposal of the County's solid waste.
- The Ditch Special Revenue Fund accounts for special assessment revenues levied against benefitted property to finance the cost of constructing and maintaining an agricultural drainage ditch system.
- The Springdale Watershed Special Revenue Fund accounts for restricted property tax revenues to be used to improve the watershed district in Springdale Township.

1. Summary of Significant Accounting Policies

B. Basic Financial Statements

2. Fund Financial Statements (Continued)

- The Debt Service Fund is used to account for the accumulation of restricted resources used for, and the payment of, principal, interest, and related costs.

Additionally, the County reports the following fund types:

- The Internal Service Fund accounts for health insurance premiums and payments.
- Agency funds are custodial in nature and do not present results of operations or have a measurement focus. These funds account for assets that the County holds for others in an agent capacity.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary fund, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Redwood County considers all revenues as available if collected within 60 days after the end of the current period. Property taxes are recognized as revenues in the year for which they are levied provided they are also available. Shared revenues are generally recognized in the period the appropriation goes into effect and the revenues are available. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met and are available. Property and other taxes, licenses, and interest are all considered susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, compensated absences, and claims and judgments, which are recognized as expenditures to the extent that they have matured. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

C. Measurement Focus and Basis of Accounting (Continued)

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or incidental activities.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first and then unrestricted resources as needed.

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity

1. Deposits and Investments

The cash balances of substantially all funds are pooled and invested by the County Auditor-Treasurer for the purpose of increasing earnings through investment activities. Pooled and fund investments are reported at their fair value at December 31, 2015, based on market prices. Pursuant to Minn. Stat. § 385.07, investment earnings on cash and pooled investments are credited to the General Fund. Other funds received investment earnings based on other state statutes, grant agreements, contracts, and bond covenants. Pooled investment earnings for 2015 were \$9,144.

Cash and cash equivalents are identified only for the purpose of the statement of cash flows for the proprietary fund. Pooled investments, which have the characteristics of demand deposits, are considered to be cash and cash equivalents on the statement of cash flows.

Redwood County invests in an external investment pool, the Minnesota Association of Governments Investing for Counties (MAGIC) Fund, which is created under a joint powers agreement pursuant to Minn. Stat. § 471.59. The investment in the pool is measured at the net asset value per share provided by the pool.

(Continued)

2. Receivables and Payables

Activities between funds representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either “due to/from other funds” (the current portion of interfund loans) or “advances to/from other funds” (the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.”

Advances between funds, as reported in the fund financial statements, are offset by nonspendable fund balance in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Property taxes are levied as of January 1 on property values assessed as of the same date. The tax levy notice is mailed in March with the first half payment due May 15 and the second half payment due October 15 or November 15. Unpaid taxes at December 31 become liens on the respective property and are classified in the financial statements as delinquent taxes receivable.

Special assessments receivable consist of delinquent special assessments payable in the years 2010 through 2015 and deferred special assessments payable in 2016 and after. Unpaid special assessments at December 31 are classified in the financial statements as delinquent special assessments.

No allowance for uncollectible taxes/special assessments has been provided because such amounts are not expected to be material.

The County had no accounts receivable scheduled to be collected beyond one year.

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity  
(Continued)

3. Inventories and Prepaid Items

All inventories are valued at cost using the first in/first out method. Inventories in governmental funds are recorded as expenditures when purchased rather than when consumed. Inventories in proprietary funds and at the government-wide level are recorded as expenses when consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (such as roads, bridges, sidewalks, and similar items), are reported in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of Redwood County are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	25 - 40
Building improvements	20 - 35
Public domain infrastructure	15 - 70
Furniture, equipment, and vehicles	3 - 20
Intangible assets	3 - 7

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity  
(Continued)

5. Compensated Absences

The liability for compensated absences reported in the financial statements consists of unpaid, accumulated annual and sick leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included. A liability for compensated absences is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. Compensated absences are accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. The government-wide statement of net position reports both current and noncurrent portions of compensated absences. The current portion consists of an amount based on a trend analysis of current usage of vacation and vested sick leave. The noncurrent portion consists of the remaining amount of vacation and total vested sick leave.

6. Long-Term Obligations

In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity  
(Continued)

7. Pension Plan

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA, except that PERA's fiscal year-end is June 30. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Plan investments are reported at fair value. The pension liability is liquidated through the General Fund and other governmental funds that have personal services.

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expenditure/expense) until then. The County has one item, deferred pension outflows, that qualifies for reporting in this category. These outflows arise only under the full accrual basis of accounting and consist of pension plan contributions paid subsequent to the measurement date, pension plan changes in proportionate share, and also the differences between projected and actual earnings on pension plan investments and, accordingly, are reported only in the statement of net position.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has two types of deferred inflows. The governmental funds report unavailable revenue from delinquent taxes receivable, delinquent and deferred special assessments receivable, interest receivable, grant monies receivable, and other receivables for amounts that are not

considered to be available to liquidate liabilities of the current period. Unavailable revenue arises only under the modified accrual basis of accounting and, accordingly, is reported only in the governmental funds balance sheet. The unavailable revenue amount is deferred and recognized as an inflow of resources in the period that the amounts become available. The County also has deferred pension inflows. These inflows arise only under the full accrual basis of accounting and consist of differences between expected and actual pension plan economic experience and also pension plan changes in proportionate share and, accordingly, are reported only in the statement of net position.

9. Unearned/Unavailable Revenue

Governmental funds and government-wide financial statements report unearned revenue in connection with resources that have been received, but not yet earned. Governmental funds report unavailable revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period.

10. Classification of Net Position

Net position in the government-wide and proprietary fund financial statements is classified in the following categories:

- Net investment in capital assets - the amount of net position representing capital assets, net of accumulated depreciation, and reduced by outstanding debt attributed to the acquisition, construction, or improvement of the assets.
- Restricted net position - the amount of net position for which external restrictions have been imposed by creditors, grantors, contributors, or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- Unrestricted net position - the amount of net position that does not meet the definition of restricted or net investment in capital assets.

1. Summary of Significant Accounting Policies

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity  
(Continued)

11. Classification of Fund Balances

Fund balance is divided into five classifications based primarily on the extent to which Redwood County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

- Nonspendable - amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.
- Restricted - amounts in which constraints have been placed on the use of resources either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.
- Committed - amounts that can be used only for the specific purposes imposed by formal action (resolution) of the County Board. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts.
- Assigned - amounts the County intends to use for specific purposes that do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the County Board or the County Administrator, who has been delegated that authority by Board resolution.
- Unassigned - the residual classification for the General Fund and includes all spendable amounts not contained in the other fund balance classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted or committed.

**REDWOOD FALLS, MINNESOTA**

---

1. Summary of Significant Accounting Policies

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Equity

11. Classification of Fund Balances (Continued)

Redwood County applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

12. Minimum Fund Balance

Redwood County has adopted a minimum fund balance policy for the General Fund. The General Fund is heavily reliant on property tax revenues to fund current operations. However, current property tax revenues are not available for distribution until June. Therefore, the County Board has determined it needs to maintain a minimum unrestricted fund balance (committed, assigned, and unassigned) of no less than three months of operating expenditures. The fund balance policy was adopted by the County Board on December 27, 2011. At December 31, 2015, unrestricted fund balance for the General Fund was at or above the minimum fund balance level.

13. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

E. Change in Accounting Principles

During the year ended December 31, 2015, the County adopted new accounting guidance by implementing the provisions of GASB Statements 68, 71, and 82. GASB Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*, requires governments providing defined benefit pensions to

employees through pension plans administered through trusts to record their proportionate share of the net pension obligation as a liability on their financial statements along with related deferred outflows of resources, deferred inflows of resources, and pension expense. This statement also requires additional note disclosures and schedules in the required supplementary information.

GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*, addresses an issue regarding amounts associated with contributions made to a pension plan after the measurement date of the net pension liability.

GASB Statement No. 82, *Pension Issues - an amendment of GASB Statement No. 68*, modifies the measure of payroll that is presented in the required supplementary information schedules.

GASB Statements 68 and 71 require the County to report its proportionate share of the PERA total employers' unfunded pension liability. As a result, beginning net position has been restated to record the County's net pension liability of (\$3,959,207) and related deferred outflows of resources of \$202,764.

	Governmental Activities
Net Position, January 1, 2015, as previously reported	\$ 95,279,825
Change in accounting principles	(3,756,443)
Net Position, January 1, 2015, as restated	\$ 91,523,382

2. Stewardship, Compliance, and Accountability

Deficit Fund Balance

The Springdale Watershed Special Revenue Fund had a deficit fund balance of \$222 at December 31, 2015. This was due to taxes not being collected in 2015, thus requiring advance funds from the Ditch Special Revenue Fund to cover the cash deficit. This deficit will be eliminated with the collection of the delinquent taxes.

Reconciliation of the County's total cash and investments to the basic financial statements follows:

 Total Cash and Investments	 <u><u>\$ 21,656,386</u></u>

a. Deposits

The County is authorized by Minn. Stat. §§ 118A.02 and 118A.04 to designate a depository for public funds and to invest in certificates of deposit. The County is required by Minn. Stat. § 118A.03 to protect deposits with insurance, surety bond, or collateral. The market value of collateral pledged shall be at least ten percent more than the amount on deposit at the close of the financial institution's banking day, not covered by insurance or bonds.

Authorized collateral includes treasury bills, notes and bonds; issues of U.S. government agencies; general obligations rated "A" or better and revenue obligations rated "AA" or better; irrevocable standby letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution not owned or controlled by the financial institution furnishing the collateral.

A. Assets and Deferred Outflows of Resources

1. Deposits and Investments

a. Deposits (Continued)

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a financial institution failure, the County's deposits may not be returned to it. The County's policy is to minimize deposit custodial credit risk by obtaining collateral or bond for all uninsured amounts on deposit and obtaining necessary documentation to show compliance with state law and a perfected security interest under federal law. As of December 31, 2015, the County's deposits were not exposed to custodial credit risk.

b. Investments

The County may invest in the following types of investments as authorized by Minn. Stat. §§ 118A.04 and 118A.05:

- (1) securities which are direct obligations or are guaranteed or insured issues of the United States, its agencies, its instrumentalities, or organizations created by an act of Congress, except mortgage-backed securities defined as "high risk" by Minn. Stat. § 118A.04, subd. 6;
- (2) mutual funds through shares of registered investment companies provided the mutual fund receives certain ratings depending on its investments;
- (3) general obligations of the State of Minnesota and its municipalities, and in certain state agency and local obligations of Minnesota and other states provided such obligations have certain specified bond ratings by a national bond rating service;

- (4) bankers' acceptances of United States banks;
- (5) commercial paper issued by United States corporations or their Canadian subsidiaries that is rated in the highest quality category by two nationally recognized rating agencies and matures in 270 days or less; and
- (6) with certain restrictions, in repurchase agreements, securities lending agreements, joint powers investment trusts, and guaranteed investment contracts.

Interest Rate Risk

Interest rate risk is the risk that changes in the market interest rates will adversely affect the fair value of an investment. The County's policy is to minimize interest rate risk by: (1) structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; (2) investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools; and (3) limiting the average maturity in accordance with the County's cash requirements.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. It is the County's policy to invest only in securities that meet the ratings requirements set by state statute.

b. Investments (Continued)

Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities in the possession of an outside party. The County's policy is to minimize investment custodial credit risk by permitting brokers that obtained investments for the County to hold them only to the extent Securities Investor Protection Corporation (SIPC) coverage and excess SIPC coverage are available. Securities purchased that exceed available SIPC coverage shall be transferred to the County's custodian. As of December 31, 2015, the County's investments held by brokers were not subject to custodial credit risk.

Concentration of Credit Risk

The concentration of credit risk is the risk of loss that may be caused by the County's investment in a single issuer. The County's policy is to diversify the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

The following table presents the County's cash and investment balances at December 31, 2015, and information relating to potential investment risks:

2. Loans Receivable

On June 4, 2013, the County Board approved a \$1,000,000 loan to the Redwood/Renville Regional Solid Waste Authority (RRRSWA) to finance a Joint Regional Material Recovery Facility. On November 17, 2015, the County Board approved an additional \$1,600,000 loan to RRRSWA. RRRSWA will have semi-annual interest payments due to the County on June 1 and December 1 of each applicable year, with no principal due. At the end of the three-year period, interest will be reviewed and repayment schedules will be established.

Starting in 2009, the Redwood County Economic Development Authority (RCEDA) received a Rural Business Enterprise Grant through the United States Department of Agriculture with a match from the County to provide revolving loans to area businesses. The County Board approves all loans recommended by the RCEDA. On February 3, 2015, the County Board approved to write off Larson's Appliance RCEDA loan in the amount of \$21,579 as an uncollectable debt due to bankruptcy. The County has four outstanding RCEDA loans as of December 31, 2015.

4. Pension Plans and Other Postemployment Benefits

A. Defined Benefit Pension Plans

1. Plan Description

All full-time and certain part-time employees of Redwood County are covered by defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA administers the General Employees Retirement Fund, the Public Employees Police and Fire Fund, and the Local Government Correctional Service Retirement Fund (the Public Employees Correctional Fund), which are cost-sharing, multiple-employer retirement plans. These plans are established and administered in accordance with Minn. Stat. chs. 353 and 356. PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

General Employees Retirement Fund members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. The Basic Plan was closed to new members in 1967. All new members must participate in the Coordinated Plan, for which benefits vest after five years of credited service.

Police officers, firefighters, and peace officers who qualify for membership by statute are covered by the Public Employees Police and Fire Fund. For members first hired after June 30, 2010, but before July 1, 2014, benefits vest on a graduated schedule starting with 50 percent after 5 years and increasing 10 percent for each year of service until fully vested after 10 years. Benefits for members first hired after June 30, 2014, vest on a prorated basis from 50 percent after 10 years and increasing 5 percent for each year of service until fully vested after 20 years.

Local government employees of a county-administered facility who are responsible for the direct security, custody, and control of the county correctional facility and its inmates are covered by the Public Employees Correctional Fund. For members hired after June 30, 2010, benefits vest on a graduated schedule starting with 50 percent after 5 years and increasing 10 percent for each year of service until fully vested after 10 years.

A. Defined Benefit Pension Plans (Continued)

2. Benefits Provided

PERA provides retirement benefits as well as disability benefits to members and benefits to survivors upon death of eligible members. Benefit provisions are established by state statute and can be modified only by the state legislature. Benefit increases are provided to benefit recipients each January. Increases are related to the funding ratio of the plan. Benefit recipients receive a future annual 1.0 percent post-retirement benefit increase. If the funding ratio reaches 90 percent for two consecutive years, the benefit increase will revert to 2.5 percent. If, after reverting to a 2.5 percent benefit increase, the funding ratio declines to less than 80 percent for one year or less than 85 percent for two consecutive years, the benefit increase will decrease to 1.0 percent.

The benefit provisions stated in the following paragraph of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not yet receiving them are bound by the provisions in effect at the time they last terminated their public service.

Benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for General Employees Retirement Fund Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2 percent of average salary for each of the first ten years of service and 2.7 percent for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2 percent of average salary for each of the first ten years of service and 1.7 percent for each remaining year. Under Method 2, the annuity accrual rate is 2.7 percent of average salary for Basic Plan members and 1.7 percent for Coordinated Plan members for each year of service. For Public Employees Police and Fire Fund members, the annuity accrual rate is 3.0 percent of average salary for each year of service. For Public Employees Correctional Fund members, the annuity accrual rate is 1.9 percent of average salary for each year of service.

A. Defined Benefit Pension Plans

2. Benefits Provided (Continued)

For General Employees Retirement Fund members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90, and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66. For Public Employees Police and Fire Fund and Public Employees Correctional Fund members who were hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90, and normal retirement age is 55. Disability benefits are available for vested members and are based on years of service and average high-five salary.

3. Contributions

Pension benefits are funded from member and employer contributions and income from the investment of fund assets. Rates for employer and employee contributions are set by Minn. Stat. ch. 353. These statutes are established and amended by the state legislature. General Employees Retirement Fund Basic Plan members and Coordinated Plan members were required to contribute 9.10 percent and 6.50 percent, respectively, of their annual covered salary in 2015. Public Employees Police and Fire Fund members were required to contribute 10.80 percent of their annual covered salary in 2015. Public Employees Correctional Fund members were required to contribute 5.83 percent of their annual covered salary in 2015.

In 2015, the County was required to contribute the following percentages of annual covered salary:

General Employees Retirement Fund	
Basic Plan members	11.78%
Coordinated Plan members	7.50
Public Employees Police and Fire Fund	16.20
Public Employees Correctional Fund	8.75

The General Employees Retirement Fund Coordinated Plan member and employer contribution rates each reflect a 0.25 percent increase from 2014. The Public Employees Police and Fire Fund member and employer contribution rates increased 0.60 percent and 0.90 percent, respectively, from 2014.

3. Contributions (Continued)

The County's contributions for the year ended December 31, 2015, to the pension plans were:

General Employees Retirement Fund	\$ 284,372
Public Employees Police and Fire Fund	122,845
Public Employees Correctional Fund	50,141

The contributions are equal to the contractually required contributions as set by state statute.

4. Pension Costs

General Employees Retirement Fund

At December 31, 2015, the County reported a liability of \$3,187,249 for its proportionate share of the General Employees Retirement Fund's net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on the County's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2014, through June 30, 2015, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2015, the County's proportion was 0.0615 percent. It was 0.0659 percent measured as of June 30, 2014. The County recognized pension expense of \$372,085 for its proportionate share of the General Employees Retirement Fund's pension expense.

Public Employees Police and Fire Fund

At December 31, 2015, the County reported a liability of \$886,263 for its proportionate share of the Public Employees Police and Fire Fund's net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on the County's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2014, through June 30, 2015, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2015, the County's proportion was 0.078 percent. It was 0.078 percent measured as of June 30, 2014. The County recognized pension expense of \$152,797 for its proportionate share of the Public Employees Police and Fire Fund's pension expense.

The County also recognized \$7,020 as revenue, which results in a reduction of the net pension liability, for its proportionate share of the State of Minnesota's on-behalf contribution to the Public Employees Police and Fire Fund. Legislation requires the State of Minnesota to contribute \$9 million to the Public Employees Police and Fire Fund each year, starting in fiscal year 2014, until the plan is 90 percent funded.

The County reported its proportionate share of the Public Employees Police and Fire Fund's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ -	\$ 143,723

4. Pension Costs (Continued)

Total Pension Expense

The total pension expense for all plans recognized by the County for the year ended December 31, 2015, was \$574,178.

5. Actuarial Assumptions

The total pension liability in the June 30, 2015, actuarial valuation was determined using the individual entry age normal actuarial cost method and the following additional actuarial assumptions:

Inflation	2.75 percent per year
Active member payroll growth	3.50 percent per year
Investment rate of return	7.90 percent

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors, and disabilitants were based on RP-2000 tables for males or females, as appropriate, with slight adjustments. For the General Employees Retirement Fund and the Public Employees Police and Fire Fund, cost of living benefit increases for retirees are assumed to be 1.0 percent effective every January 1 through 2035 and 2037, respectively, and 2.5 percent thereafter. Cost of living benefit increases for retirees are assumed to be 2.5 percent for all years for the Public Employees Correctional Fund.

Actuarial assumptions used in the June 30, 2015, valuation were based on the results of actuarial experience studies. The experience study in the General Employees Retirement Fund was for the period July 1, 2004, through June 30, 2008, with an update of economic assumptions in 2014. The experience study for the Public Employees Police and Fire Fund was for the period July 1, 2004, through June 30, 2009. The experience study for the Public Employees Correctional Fund was for the period July 1, 2006, through June 30, 2011.

In 2015, an updated experience study was done for PERA's General Employees Retirement Fund for the six-year period ending June 30, 2014, which would result in a larger pension liability. However, PERA will not implement the changes in assumptions until its June 30, 2016, estimate of pension liability.

4. Pension Plans and Other Postemployment Benefits

A. Defined Benefit Pension Plans

5. Actuarial Assumptions (Continued)

The long-term expected rate of return on pension plan investments is 7.9 percent. The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness of the long-term expected rate of return on a regular basis using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic stocks	45%	5.50%
International stocks	15	6.00
Bonds	18	1.45
Alternative assets	20	6.40
Cash	2	0.50

6. Discount Rate

The discount rate used to measure the total pension liability was 7.9 percent. The discount rate did not change since the prior measurement date. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, each of the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

7. Pension Liability Sensitivity

The following presents the County’s proportionate share of the net pension liability calculated using the discount rate disclosed in the preceding paragraph, as well as what the County’s proportionate share of the net pension liability would be if it were calculated using a discount rate 1.0 percentage point lower or 1.0 percentage point higher than the current discount rate:

	1% Decrease in Discount Rate (6.9%)	Discount Rate (7.9%)	1% Increase in Discount Rate (8.9%)
Proportionate share of the General Employees Retirement Fund net pension liability	\$ 5,011,489	\$ 3,187,249	\$ 1,680,708
Public Employees Police and Fire Fund net pension liability	1,727,335	886,263	191,390
Public Employees Correctional Fund net pension liability (asset)	312,231	44,834	(169,192)

8. Pension Plan Fiduciary Net Position

Detailed information about the pension plan’s fiduciary net position is available in a separately issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the internet at [www.mnpera.org](http://www.mnpera.org); by writing to PERA at 60 Empire Drive, Suite 200, St. Paul, Minnesota 55103-2088; or by calling (651) 296-7460 or 1-800-652-9026.

B. Defined Contribution Plan

Four employees of Redwood County are covered by the Public Employees Defined Contribution Plan, a multiple-employer deferred compensation plan administered by PERA. The plan is established and administered in accordance with Minn. Stat. ch. 353D, which may be amended by the state legislature. The plan is a tax qualified plan under Section 401(a) of the Internal Revenue Code, and all contributions by or on behalf of employees are tax deferred until time of withdrawal.

REDWOOD FALLS, MINNESOTA**

4. Pension Plans and Other Postemployment Benefits

B. Defined Contribution Plan (Continued)

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. For those qualified personnel who elect to participate, Minn. Stat. § 353D.03 specifies plan provisions, including the employee and employer contribution rates. An eligible elected official who decides to participate contributes 5.00 percent of salary, which is matched by the employer. Employee and employer contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment Fund. For administering the plan, PERA receives 2.00 percent of employer contributions and 0.25 percent of the assets in each member account annually.

Total contributions by dollar amount and percentage of covered payroll made by the County during the year ended December 31, 2015, were:

	Employee	Employer
Contribution amount	\$ 5,404	\$ 5,404
Percentage of covered payroll	5%	5%

C. Other Postemployment Benefits (OPEB)

Plan Description

Redwood County pays the health insurance for qualified retired employees and elected officials. Employees who retire between age 55 and 65 with 25 years of public service, and with at least 10 years of service with Redwood County, qualify for health insurance benefits. Elected officials qualify if they serve a minimum of 2 years as an elected Redwood County official. The elected official and his or her surviving spouse and dependents will receive one year of paid or partially paid medical insurance for every 2 years of service to Redwood County. Additional years, not a multiple of 2, are prorated. A maximum of six years of paid insurance is available to elected officials. On November 30, 2010, the Board took action to change the health insurance benefits for elected officials. For those elected officials taking office on or before January 4, 2011, the following provisions apply as above, except the County will not exceed the actual cost of the County's \$500 deductible plan for the "Retiree and Spouse, both

65 years of age or over” rate. For those elected officials taking office after January 4, 2011, the following provisions apply. The elected official who retires between age 55 and 65, with at least 10 years of service with Redwood County, qualifies for health insurance benefits.

Funding Policy

The amount paid by the County will not exceed the amount that the County contributes to employees pursuant to policy 6.16, as may be amended from time to time by the County Board. For retired employees, the County rates are based on the County’s group health policy rates in effect at the time of retirement and are a fixed amount until discontinued at age 65 and after a maximum of six years for elected officials. As of year-end December 31, 2015, the County has five eligible participants (three elected officials and two employees). The County finances the plan on a pay-as-you-go basis. During 2015, the County expended \$57,845 for these benefits.

The annual OPEB cost (expense) is allocated based on the County’s contributions to retiree premiums through the General Fund, the Solid Waste Special Revenue Fund, and the Ditch Special Revenue Fund.

Annual OPEB Cost and Net OPEB Obligation

The County’s annual OPEB cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial accrued liabilities (or funding excess) over a period not to exceed 30 years.

Funded Status and Funding Progress

As of January 1, 2014, the most recent actuarial valuation date, the County had no assets to fund the plan. The actuarial accrued liability for benefits was \$788,652 and the actuarial value of assets was zero, resulting in an unfunded actuarial accrued liability (UAAL) of \$788,652. The covered payroll (annual payroll of active employees covered by the plan) was \$4,582,346, and the ratio of the UAAL to the covered payroll was 17.2 percent.

C. Other Postemployment Benefits (OPEB) (Continued)

Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the health care cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress - Other Postemployment Benefits, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit cost between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2014, actuarial valuation, the projected unit credit with linear proration to decrement actuarial cost method was used.

The annual health care cost trend has been revised to an initial rate of 7.0 percent for fiscal year ending December 31, 2016, decreasing by 0.5 percent annually to an ultimate rate of 4.5 percent. A 3.5 percent per year inflation rate is included. The UAAL is being amortized over 30 years using a 4.5 percent interest rate discount factor. The remaining amortization period at December 31, 2015, was 22 years.

5. Summary of Significant Contingencies and Other Items

A. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; injuries to employees; or natural disasters for which the County carries commercial insurance. To manage these risks, the County has entered into a joint powers agreement with other Minnesota counties to form the Minnesota Counties Intergovernmental Trust (MCIT). MCIT is a public entity risk pool currently operated as a common risk management and insurance program for its members. The County is a member of both the MCIT Workers' Compensation and Property and Casualty Divisions. For all other risk, the County carries commercial insurance. There were no significant reductions in insurance from the prior year. The amount of settlements did not exceed insurance coverage for the past three fiscal years.

The Workers' Compensation Division of MCIT is self-sustaining based on the contributions charged, so that total contributions plus compounded earnings on these contributions will equal the amount needed to satisfy claims liabilities and other expenses. MCIT participates in the Workers' Compensation Reinsurance Association with coverage at \$490,000 per claim in 2015 and \$500,000 in 2016. Should the MCIT Workers' Compensation Division liabilities exceed assets, MCIT may assess the County in a method and amount to be determined by MCIT.

The Property and Casualty Division of MCIT is self-sustaining, and the County pays an annual premium to cover current and future losses. MCIT carries reinsurance for its property lines to protect against catastrophic losses. Should the MCIT Property and Casualty Division liabilities exceed assets, MCIT may assess the County in a method and amount to be determined by MCIT.

On October 15, 2013, Redwood County entered into a joint powers agreement with three local counties (Murray, Lyon, and Swift) and Southwest Health and Human Services to form the Minnesota Public Sector Collaborative to self-insure health insurance as of January 1, 2014. Premiums will be withheld from employees and transferred into an internal service fund. Claims are managed and paid by a third party, and the County will be billed weekly, in aggregate, for claims incurred.

5. Summary of Significant Contingencies and Other Items

A. Risk Management (Continued)

The County established a limited risk management program for health coverage in 2014. Premiums are paid into the Self-Insurance Internal Service Fund by all other funds and are available to pay claims, claim reserves, and administrative costs of the program. The County has retained risk up to a \$50,000 stop-loss per person insured (employee and eligible dependent) per year (\$1,000,000 aggregate) for the health plan. Liabilities of the Self-Insurance Internal Service Fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated.

The December 31, 2015, liability is determined based on detailed reports received by the County from the third-party administrator for claims incurred, adjusted, and paid through February 29, 2016. Changes in the balances of claims liabilities during the year are as follows:

Unpaid claims, January 1, 2015	\$ 57,144
Incurred claims	1,013,079
Claims payments	<u>(1,011,372)</u>
Unpaid Claims, December 31, 2015	<u>\$ 58,851</u>

B. Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of the expenditures that may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County Attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the government.

Lincoln-Pipestone Rural Water System

At December 31, 2015, the Lincoln-Pipestone Rural Water System had \$32,402,123 of general obligation bonds and other loans outstanding through 2052. The bonds were issued by some of the participating counties in the Rural Water System to finance the construction of water system expansions and improvements.

The debt is paid by the Lincoln-Pipestone Rural Water System from special assessments levied against property specially benefited by the applicable expansion, extension, or enlargement of the system and from the net revenues from time to time received in excess of the current costs of operating and maintaining the system. The bonds are general obligations of the issuing counties for which their full faith, credit, and unlimited taxing powers are pledged. The participating counties (Jackson, Lac qui Parle, Lincoln, Lyon, Murray, Nobles, Pipestone, Redwood, Rock, and Yellow Medicine) have adopted Board resolutions and have signed joint powers agreements to define their liability for a proportional share of the debt should the issuing counties be required to make any debt service payments. In such a situation, each of the other counties will promptly reimburse the paying counties in proportion to the percentage of Lincoln-Pipestone Rural Water System customers located in such county, in accordance with Minn. Stat. § 116A.24, subd. 3. The outstanding bonds are reported as liabilities in the annual financial statements of the Lincoln-Pipestone Rural Water System and are not reported as liabilities in the financial statements of any of the ten participating counties. The participating counties disclose a contingent liability due to the guarantee of indebtedness.

C. Joint Ventures

Lincoln-Pipestone Rural Water System

Redwood County, along with Jackson, Lac qui Parle, Lincoln, Lyon, Murray, Nobles, Pipestone, Rock, and Yellow Medicine Counties, jointly established the Lincoln-Pipestone Rural Water System pursuant to Minn. Stat. ch. 116A. The Rural Water System is responsible for storing, treating, and distributing water for domestic, commercial, and industrial use within the area it serves. The cost of providing these services is recovered through user charges.

Lincoln-Pipestone Rural Water System (Continued)

The Lincoln-Pipestone Rural Water System is governed by a Board appointed by the District Court. The Rural Water System's Board is solely responsible for the budgeting and financing of the Rural Water System.

Bonds were issued by Lincoln, Nobles, and Yellow Medicine Counties to finance the construction of the Rural Water System. Costs assessed to municipalities and special assessments levied against benefited properties pay approximately 85 percent of the amount necessary to retire principal and interest on the bonds. The remainder of the funds necessary to retire the outstanding bonds and interest will be provided by appropriations from the Lincoln-Pipestone Rural Water System. Outstanding obligations at December 31, 2015, were \$32,402,123.

Complete financial statements of the Lincoln-Pipestone Rural Water System can be obtained at East Highway 14, P. O. Box 188, Lake Benton, Minnesota 56149-0188.

Red Rock Rural Water System

The Red Rock Rural Water System was established pursuant to Minn. Stat. ch. 116A through a joint powers agreement pursuant to Minn. Stat. § 471.59 and under the jurisdiction of the Fifth Judicial District. Brown, Cottonwood, Jackson, Lyon, Murray, Redwood, and Watonwan Counties have agreed to guarantee their share of debt arising within each respective county. The Red Rock Rural Water System provides water for participating rural water users and cities within the water district. The cost of providing these services is recovered through user charges.

The governing body is composed of nine members appointed to three-year terms by the District Court. Each county is responsible for levying and collecting the special assessments from the benefited properties within that county. A bond issue and notes payable are shown as long-term debt in the financial statements of the Red Rock Rural Water System.

Complete financial information can be obtained from the Red Rock Rural Water System, 305 West Whited Street, Jeffers, Minnesota 56145.

Southwest Minnesota Regional Emergency Communications Joint Powers Board

As of August 23, 2013, the Southwest Minnesota Regional Radio Board changed its name to the Southwest Minnesota Regional Emergency Communications Joint Powers Board. The Southwest Minnesota Regional Emergency Communications Joint Powers Board was established April 22, 2008, between Redwood County, the Cities of Marshall and Worthington, and 12 other counties under the authority of Minn. Stat. §§ 471.59 and 403.39. The purpose of the agreement is to formulate a regional radio board to provide for regional administration of enhancements to the Statewide Public Safety Radio and Communication System (ARMER).

Control is vested in a Joint Powers Board consisting of one County Commissioner and one City Council member for each party to the agreement. The members representing counties and cities shall be appointed by their respective governing bodies for the membership of that governing body. In addition, voting members of the Board include a member of the Southwest Minnesota Regional Advisory Committee, a member of the Southwest Minnesota Regional Radio System User Committee, and a member of the Southwest Minnesota Owners and Operators Committee.

Financing is provided by the appropriations from member parties and by state and federal grants. During 2015, Redwood County did not contribute to the Joint Powers Board.

Redwood/Renville Regional Solid Waste Authority

The Redwood/Renville Regional Solid Waste Authority (RRRSWA) Joint Powers Agreement was established by an agreement between Redwood County and Renville County under the authority of Minn. Stat. § 471.59. The agreement was made to facilitate development and operation of an integrated solid waste management system to serve the Counties and to provide for a separate, free-standing public entity.

The governing board is composed of seven members. Three members are appointed by the Redwood County Board of Commissioners. Three members are appointed by the Renville County Board of Commissioners. One at-large member is jointly appointed by the Counties.

Redwood/Renville Regional Solid Waste Authority (Continued)

On June 4, 2013, Redwood County approved to loan RRRSWA \$1,000,000, with a two percent interest rate, having only interest paid in the first three years of operation. After the initial three years of operation, a repayment schedule will be set. In 2013, Renville County loaned RRRSWA \$1,000,000, with a two percent interest rate, having interest only paid in the first three years of operation. After the initial three years of operation, a repayment schedule will be set.

In August 2013, Redwood County issued \$2,040,000 General Obligation Recycling Facility Bonds, Series 2013A, which was paid to RRRSWA. Renville County pays Redwood County for its share of the principal and interest payments on the general obligation bonds. Redwood County's portion of the bonds are paid from solid waste assessments.

On November 17, 2015, Redwood County approved to loan RRRSWA \$1,600,000, with an interest rate of two percent. Principal payments will begin in 2017. In 2015, Renville County loaned RRRSWA \$1,600,000.

Renville County is the fiscal host and includes RRRSWA as an agency fund in its financial statements.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION  
FOR THE YEAR ENDED DECEMBER 31, 2015

---

1. General Budget Policies

The County Board adopts estimated revenue and expenditure budgets for the General Fund and special revenue funds. The expenditure budget is approved at the fund level.

The budgets may be amended or modified at any time by the County Board. Expenditures may not legally exceed budgeted appropriations. Comparisons of final budgeted revenues and expenditures to actual are presented in the required supplementary information for the General Fund and special revenue funds.

2. Budget Basis of Accounting

Budgets are adopted on a basis consistent with generally accepted accounting principles.

3. Budget Amendments

Revenue budgets were amended in the following fund:

	<u>Original Budget</u>	<u>Increase (Decrease)</u>	<u>Final Budget</u>
General Fund	\$ 8,472,915	\$ 7,433	\$ 8,480,348

Expenditure budgets were amended in the following fund:

	<u>Original Budget</u>	<u>Increase (Decrease)</u>	<u>Final Budget</u>
General Fund	\$ 8,876,934	\$ 8,863	\$ 8,885,797

**REDWOOD COUNTY  
REDWOOD FALLS, MINNESOTA**

---

4. Excess of Expenditures Over Budget

The following individual major special revenue funds had expenditures in excess of budget for the year ended December 31, 2015:

	<u>Expenditures</u>	<u>Budget</u>	<u>Excess</u>
Special Revenue Funds			
Road and Bridge	\$ 8,560,722	\$ 6,774,000	\$ 1,786,722
Ditch	692,892	524,735	168,157
Springdale Watershed	323,311	-	323,311

5. Other Postemployment Benefits Funded Status

Since the County has not irrevocably deposited funds in a trust for future health benefits, the actuarial value of the assets to pay the actuarial accrued liability for postemployment benefits is zero.

See Note 4.C. in the notes to the financial statements for additional information regarding the County's other postemployment benefits.

6. Other Postemployment Benefits - Significant Actuarial Assumption Changes

2014

Actuarial Assumptions

- The methodology used to calculate retiree-appropriate per capita costs was changed. Previously, the retiree-appropriate rates were assumed to vary by age based on a 3.5 percent annual aging factor. Currently, the annual per capita costs are calculated based on the 2014 expected claims cost plus administrative expenses, actuarially increased using health index factors that vary by a five-year age band and current enrollment. The methodology change creates a decrease in the liability.
- Mortality assumptions were updated to include future mortality improvement. This change caused an increase in the liability.
- Retirement rates were updated based on the County's historical retirement experience. This change caused a decrease in the liability.

**REDWOOD COUNTY**  
**REDWOOD FALLS, MINNESOTA**

---

---

6. Other Postemployment Benefits - Significant Actuarial Assumption Changes

2014

Actuarial Assumptions (Continued)

- The percentage of active non-elected official employees assumed to elect spousal coverage at retirement was increased from zero to actual spousal coverage election (which is approximately 20.0 percent for male employees and 12.0 percent for female employees). All elected officials who currently have spousal coverage (approximately 33.0 percent) are assumed to elect spousal coverage at retirement. In the prior valuation, all elected officials were assumed to elect spousal coverage at retirement regardless of their current coverage election. This change caused a decrease in the liability.
  
- Health care trend rates were revised to an initial rate of 7.5 percent for fiscal year ending 2015 decreasing by 0.5 percent annually to an ultimate rate of 4.5 percent. Actual premium increase from 2014 to 2015 was used for the fiscal year ending December 31, 2014, health care trend assumption. Previously, the initial health care trend rate was 8.0 percent, decreasing annually to an ultimate rate of 3.5 percent. This change caused an increase in the liability.

1. Reporting Entity

The Schedule of Expenditures of Federal Awards presents the activities of federal award programs expended by Redwood County. The County's reporting entity is defined in Note 1 to the basic financial statements.

2. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of Redwood County under programs of the federal government for the year ended December 31, 2015. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of Redwood County, it is not intended to and does not present the financial position, changes in net position, or cash flows of Redwood County.

3. Summary of Significant Accounting Policies

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local and Indian Tribal Governments*, or the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Redwood County has elected to not use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

Finding 2014-001

Publishing Claims Paid

**Criteria:** Minnesota Statutes § 375.12 requires that County Board minutes be published within 30 days of the meeting and include an individualized, itemized list of County Board-approved payments over \$2,000. For claims \$2,000 or less, the total number of claims and total amount shall be stated. The County can publish summaries of the minutes, meeting the requirement of Minn. Stat. § 331A.01. However, the County must still publish claims as required by Minn. Stat. § 375.12.

**Condition:** Redwood County does not publish an itemized list of County Board-approved payments over \$2,000 with the total number of claims and total amount for payments under \$2,000 as provided by Minn. Stat. § 375.12. The publication provides only the total bills paid by the County Board-approved payments.

**Context:** Redwood County is concerned that publishing an itemized list of County Board-approved payments over \$2,000 would add substantial cost and serve little public interest. The County has encouraged the Association of Minnesota Counties to pursue a change of the statutes.

**Effect:** Noncompliance with Minn. Stat. § 375.12.

**Cause:** The County Board does not wish to incur the additional cost of publication and continues to make the information physically available at the County Government Center.

**Recommendation:** We recommend the County comply with the above-noted statute and publish an itemized list of County Board-approved payments over \$2,000 with the total number of claims and total amount for payments under \$2,000.

Client's Response:

*Redwood County will continue to review and consider options to bring the publication requirement into compliance with the Statute.*

## **REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

### Independent Auditor's Report

Board of County Commissioners  
Redwood County  
Redwood Falls, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Redwood County, Minnesota, as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated August 4, 2016.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Redwood County's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected, on a timely basis. A

significant deficiency is a deficiency, or combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit the attention of those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Redwood County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Minnesota Legal Compliance**

The *Minnesota Legal Compliance Audit Guide for Counties*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, contains seven categories of compliance to be tested in connection with the audit of the County's financial statements: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and tax increment financing. Our audit considered all of the listed categories, except that we did not test for compliance with the provisions for tax increment financing because Redwood County has no tax increment financing.

In connection with our audit, nothing came to our attention that caused us to believe that Redwood County failed to comply with the provisions of the *Minnesota Legal Compliance Audit Guide for Counties*, except as described in the Schedule of Findings and Questioned Costs as item 2014-001. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the County's noncompliance with the above referenced provisions.

## **Redwood County's Response to Finding**

Redwood County's response to the legal compliance finding identified in our audit has been included in the Schedule of Findings and Questioned Costs. The County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

## Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting, compliance, and the provisions of the *Minnesota Legal Compliance Audit Guide for Counties* and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance. Accordingly, this communication is not suitable for any other purpose.

## REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE

### Independent Auditor's Report

Board of County Commissioners  
Redwood County  
Redwood Falls, Minnesota

### **Report on Compliance for Each Major Federal Program**

We have audited Redwood County's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on the County's major federal program for the year ended December 31, 2015. Redwood County's major federal program is identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs.

#### ***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for Redwood County's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Redwood County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the County's compliance with those requirements.

***Opinion on the Major Federal Program***

In our opinion, Redwood County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2015.

**Report on Internal Control Over Compliance**

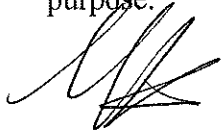

Management of Redwood County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit the attention of those charged with governance.

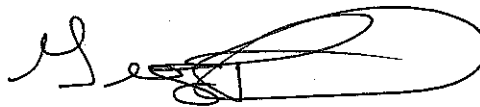

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Purpose of This Report**

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
