

## **DUST CONTROL ON GRAVEL ROADS**

Dust control on local gravel roads is available for any resident, municipality, or township through the following vendor:

SW Dust Treatment Inc.  
43709 175th St.  
Springfield, MN 56087  
Phone 507-220-8699 or 507-220-4494  
email: [info@swdusttreatment.com](mailto:info@swdusttreatment.com)

The dust control measures involve application of liquid chloride solution applied in early June with a possible second application later in the summer. It is effective in controlling dust problems through the summer months under normal conditions. Standard application is 18 feet wide and approximately 400 feet long but can be done in any length.
