For the reclamation of the Dahlberg property, we plan to buy a bulldozer and do the work ourselves.

As you look at the map the black line is going to be tile and drainage for a natural spring.

The red on the map is filling in and repairing the banks and fill in the settling ponds and repair and fill in ravine.

The blue on the map is the fill that will be used for filling the main area that was mined.

The purple on the map is an area that has to be reslopped to be better managed. Also, we plan on leaving a berm along the railroad tracks just so the water way is better.
