The Redwood County Drainage Authority ordered a Redetermination of Benefits of Redwood County JD-7 and JD-16. Viewers have been appointed to determine the benefits and damages to all property within the watershed of Redwood County JD-7 and JD-16. The redetermination of benefits and damages is the process in drainage law where Viewers determine a benefit value for each parcel within the watershed. The parcel benefit value is used to calculate a percent of total benefits. These percentages are then used to determine how much each parcel pays for repairs and maintenance on the County drainage system.

The Viewers will explain the viewing process and listen to any concerns. Landowners are encouraged to attend.
