Eric Linsmeier Trucking LLC/O&E Properties, LLC Conditional Use Permit

Redwood County Environmental Office, Planning Commission and County Board of Commissioners,

I am applying for a Conditional Use Permit in Redwood County for an AG Pole barn building with dimensions of 60'W x 104'L x 25'H on Lot #3 of the Linsmeier Addition in Paxton township. I intend to use the building to store and service my 5-unit AG hopper trucking business based in Redwood County. We provide hauling services to & from local farms, farmers, and Co-ops throughout Redwood County and greater Minnesota. Normal days of operations are mostly Monday through Friday with exceptions to emergency service requirements and the spring planting/fall harvest seasons. Hours vary depending on loading requirements or as it needed to provide service to customers. The building will be used by myself, 2 company drivers and 2 owner/operators for storage and service of equipment as needed. Equipment such as semi-trucks, Ag hopper trailers, a bobcat trailer and dry van trailers for bulk seed, while not in use, will be parked inside the building or on the northeast corner of lot 3 on a dolly pad parking area that can hold up to 5 units which is furthest away from residents to the south. The building size would accommodate a total of 2 semi-truck and trailer combinations along with 3 semi-trucks while not in use.

Building Description

The building would be of all metal exterior using earth tone colors to match the surrounding development of the area. The building has plans for a concrete floor with insulated walls for efficiency and added sound dampening. It will also require electricity for interior lighting along with exterior lights placed on the north and east-side of the building. The building will also have a small office with a restroom requiring a holding tank for sewer and a well drilled for water supply. The building would be set on the westside of LOT #3 in the Linsmeier Addition placed lengthwise north to south with the main entrance facing to the north allowing access off 340th street and directing most activity away from the residents of the Oakleigh Farms Development to the south.

LOT #3

Currently lot 3 is a gravel pad that is under an MPCA SWPPP/stormwater construction permit with the MPCA for controlling stormwater drainage. The lot will meet MPCA regulations of less than an acre of impervious surface once final construction has been completed. This will be done by removing portions of the gravel pad on the south, east, and west edges of the current pad. I have also completed the MN MPCA stormwater management course with certification for providing maintenance during construction and after completion of the project.

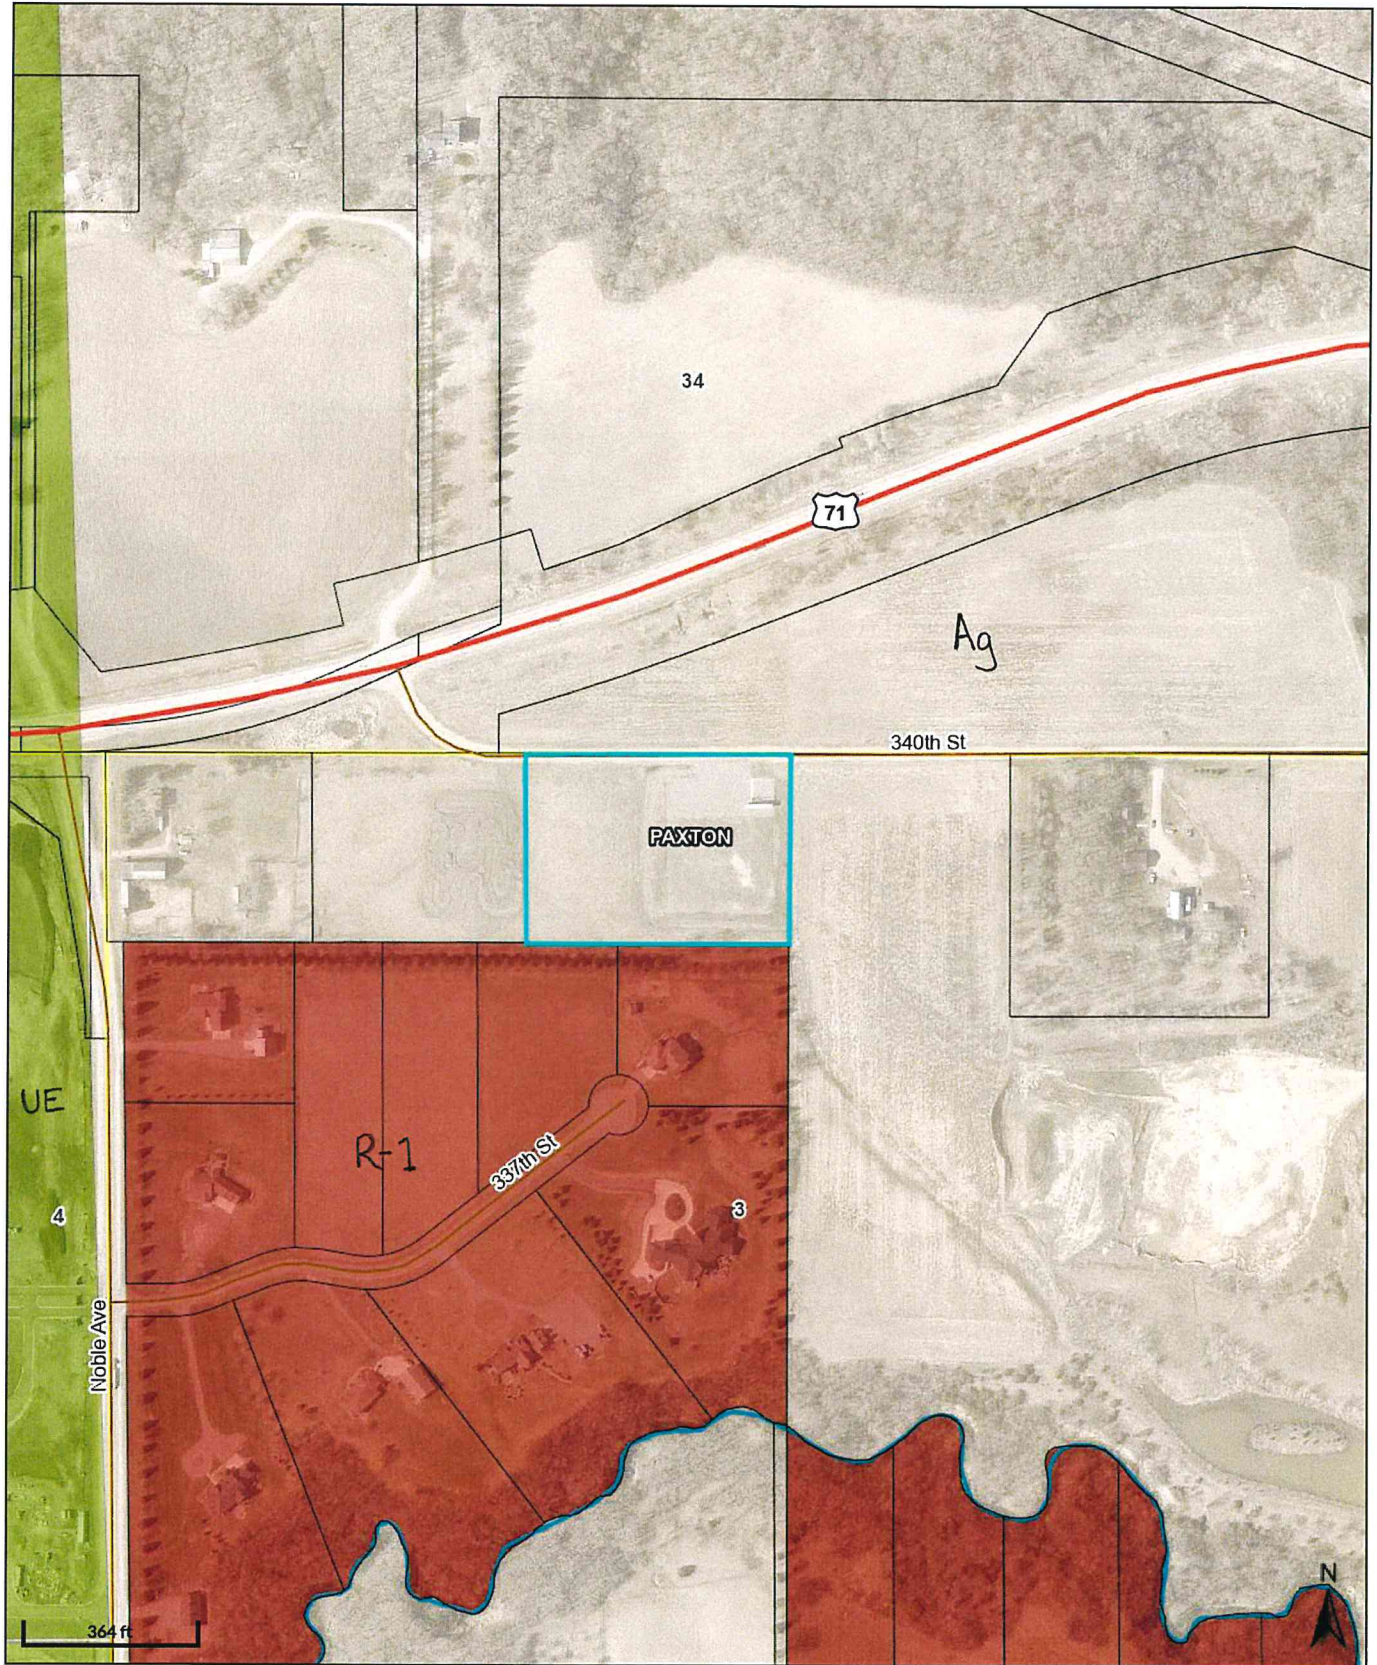

Thanks

Eric Linsmeier
