BE IT RESOLVED By the Board of Commissioners of the Redwood County, Minnesota (the "County") as follows:

1. Bonds Authorized. The County is authorized by Minnesota Statutes, Chapters 103E and 475, as amended (collectively the "Act") to finance all or a portion of the costs (the "Costs") of improvements to Joint Ditch 5 (the "Project") by the issuance of General Obligation Ditch Bonds (the "Bonds"). The County proposes to issue the Bonds in the estimated aggregate principal amount of \$1,510,000 to finance the Project. The principal of and interest on the Bonds will be paid from revenues derived primarily from assessments levied against properties specially benefited by the Project.
2. Sale of Bonds.
  - (a) It is necessary and expedient to the sound financial management of the affairs of the County to issue its General Obligation Ditch Bonds, Series 2026A (the "Bonds"), in the proposed aggregate principal amount of \$1,510,000, pursuant to the Act to provide financing for the Project and to pay capitalized interest, if necessary and the costs of issuing the Bonds. The Bonds will be issued, sold, and delivered in accordance with the Terms of Proposal attached hereto as **EXHIBIT A** (the "Terms of Proposal").
  - (b) The County is authorized by Section 475.60, subdivision 2(9) of the Act to negotiate the sale of the Bonds, it being determined that the County has retained an independent municipal advisor in connection with such sale.

Joint Financing Agreement, (the “Documents”). The Board of Commissioners hereby authorizes the Chair and the County Administrator, in their discretion and at such time, if any, as they may deem appropriate, to execute the Documents on behalf of County, and to carry out, on behalf of County, County’s obligations thereunder when all conditions precedent thereto have been satisfied. The execution of any instrument by the appropriate officers of County herein authorized shall be conclusive evidence of the approval of such document in accordance with the terms hereof. This resolution shall not constitute an offer and the Documents shall not be effective until the date of execution thereof as provided herein

4. Authority of Municipal Advisor. Baker Tilly Municipal Advisors, LLC (the “Municipal Advisor”) is authorized and directed to negotiate the Bonds on behalf of the County in accordance with the Terms of Proposal. The Board of Commissioners will meet at 8:30 A.M. on Tuesday, April 7, 2026, or such other date as the County Administrator may determine, to consider proposals on the Bonds and take any other appropriate action with respect to the Bonds. The actions of the County staff and the County’s Municipal Advisor in negotiating the sale of the Bonds are ratified and confirmed in all respects.

5. Authority of Bond Counsel. The law firm of Kutak Rock LLP, as bond counsel for the County (“Bond Counsel”), is authorized to act as bond counsel and to assist in the preparation and review of necessary documents, certificates and instruments relating to the Bonds. The officers, employees and agents of the County are hereby authorized to assist Bond Counsel, in the preparation of such documents, certificates, and instruments.

**If Action, Board Motion Requested:**

Approve Crossing Replacement Agreements with Twin Cities & Western Railroad Company for CSAH 7 in Belview, CSAH 9 West of Delhi and CSAH 25 north of Redwood Falls. Authorize the County Administrator and Board Chair to execute the agreements pending attorney approval.

**Background Information:**

CSAH 7 in Belview is planned for a reconstruction beginning in summer 2026. Prior to reconstructing the roadway, it is necessary to replace the main rail crossing and remove an unused side rail crossing. The crossing on CSAH 9 is also aging and CSAH 9 is planned for a sealcoat in 2027. The CSAH 25 crossing has some heaving in the roadway and is also scheduled for a sealcoat in 2027. Replacing all three crossings in early 2026 will provide efficiencies for both TC&W RR and RCHD in scheduling their crews to perform the work.

This project will be funded through the RCHD maintenance budget.

Exhibit C  
Insurance Requirements and Certificates of Insurance

County will ensure that each of its contractors or subcontractors (hereinafter "Contractor/Subcontractor") will, at that contractor's or subcontractor's sole cost and expense, procure, and maintain the following insurance coverages during their work on the Project:

1. Commercial General Liability Insurance

A commercial general liability policy naming it as the insured and covering the liability and indemnification obligations assumed by it under this Agreement. This insurance must contain broad form contractual liability with a combined single limit of a minimum of \$1,000,000 per occurrence, and \$2,000,000 in the aggregate. Coverage must include coverage for, but not limited to, the following:

- Bodily Injury and Property Damage
- Personal Injury and Advertising Injury
- Fire legal liability
- Products and completed operations

This policy must include a CG2417 Contractual Liability – Railroads endorsement covering incidents and activities that occur within 50 feet of railroad tracks. It is agreed that the workers' compensation and employers' liability related exclusions in the Commercial General Liability insurance policy(s) required herein are intended to apply to employees of the policy holder and shall not apply to the other Party's employees. No other endorsements limiting coverage with respect to the obligations under this Agreement may be included on the policy.

2. Commercial Automobile Insurance

A commercial automobile liability policy naming it as the insured and covering the liability and indemnification obligations assumed by it under this Agreement. This insurance must contain a combined single limit of at least \$1,000,000 per occurrence, and include coverage for, but not limited to the following:

- Bodily injury and property damage
- Any and all vehicles owned, used, or hired

3. Workers' Compensation and Employers' Liability

A workers' compensation employers' liability policy naming the contractor/subcontractor as the insured and covering the liability and indemnification obligations assumed by it under this Agreement. This insurance must include coverage for, but not limited to:

- Contractor's/Subcontractor's statutory liability under the workers' compensation laws of the state(s) in which the work or services are to be performed. If optional under state law, the insurance must cover all employees anyway.
- Employers' Liability (Part B) with limits of at least \$1,000,000 each accident, \$1,000,000 by disease policy limit, and \$1,000,000 by disease each employee.
- Contractor/Subcontractor will be responsible for proper and adequate workers' compensation coverage for all subcontracted work and services, and if the

Contractor's/Subcontractor's policy does not cover each such subcontractor, Contractor/Subcontractor will provide certificates of insurance for all subcontractors not covered under Contractor's/Subcontractor's policy by an insurance company acceptable to Railroad.

- Contractor/Subcontractor will submit its workers' compensation and employers' liability policies to Railroad for review.

#### 4. Umbrella or Excess Insurance

Umbrella or excess liability providing coverage over the Commercial General Liability, Automotive Liability, and Employer's Liability policies, with limits of not less than \$5,000,000 combined single limit per occurrence; \$5,000,000 annual aggregate, including additional insured, primary and non-contributory and waiver of subrogation coverage extensions found on the primary policies.

#### 5. Other Requirements

- None of the above-required policies may contain any exclusions for work or operations on or near the Crossing or railroad property, track, or operations.
- Any deductible, self-insured retention, or other financial responsibility for claims must be covered directly by Contractor/Subcontractor. Any and all Railroad liabilities that would otherwise, in accordance with the provisions of this Agreement, be covered by Contractor's/Subcontractor's insurance will be covered as if Contractor/Subcontractor elected not to include a deductible, self-insured retention, or other financial responsibility for claims.
- Each of the above-required policies must include Railroad as an additional insured. The coverage provided to Railroad as additional insured will, to the extent provided under ISO Additional Insured Endorsement CG 20 11, provide coverage for Railroad's negligence whether sole or partial, active or passive, and shall not be limited by County's or Contractor's/Subcontractor's liability under the indemnity provisions of this Agreement.
- Contractor/Subcontractor waives all rights against Railroad and its officers, directors, and employees for recovery of damages to the extent these damages are covered by the commercial general liability insurance, workers compensation and employers' liability, commercial automobile insurance, or commercial umbrella or excess liability insurance obtained by Contractor/Subcontractor.
- Punitive damages exclusion, if any, must be deleted (and the deletion indicated on the certificate of insurance), unless (i) insurance coverage may not lawfully be obtained for any punitive damages that may arise under this Agreement, or (ii) all punitive damages are prohibited by the state in which the Crossing is located.
- All insurance policies must be written by an insurance company acceptable to Railroad or with a current Best's Insurance Guide Rating of A- and Class VII or better and authorized to do business in the state where the Crossing is located.
- The fact that insurance is obtained by Contractor/Subcontractor will not be deemed to release or diminish the liability of Contractor/Subcontractor, including liability under the indemnity and "Contractor and Subcontractor" provisions of this Agreement.

Losses recoverable by Railroad from Contractor/Subcontractor or any third party will not be limited by the amount of the required insurance coverage.

- Each policy must contain a provision obligating the insurance company to notify Railroad in writing at least 30 days prior to any cancellation, non-renewal, substitution, or material alteration and this cancellation provision must be indicated on the certificate of insurance.

1. Commercial General Liability Insurance

A commercial general liability policy naming it as the insured and covering the liability and indemnification obligations assumed by it under this Agreement. This insurance must contain broad form contractual liability with a combined single limit of a minimum of \$1,000,000 per occurrence, and \$2,000,000 in the aggregate. Coverage must include coverage for, but not limited to, the following:

- Bodily Injury and Property Damage
- Personal Injury and Advertising Injury
- Fire legal liability
- Products and completed operations

This policy must include a CG2417 Contractual Liability – Railroads endorsement covering incidents and activities that occur within 50 feet of railroad tracks. It is agreed that the workers' compensation and employers' liability related exclusions in the Commercial General Liability insurance policy(s) required herein are intended to apply to employees of the policy holder and shall not apply to the other Party's employees. No other endorsements limiting coverage with respect to the obligations under this Agreement may be included on the policy.

2. Commercial Automobile Insurance

A commercial automobile liability policy naming it as the insured and covering the liability and indemnification obligations assumed by it under this Agreement. This insurance must contain a combined single limit of at least \$1,000,000 per occurrence, and include coverage for, but not limited to the following:

- Bodily injury and property damage
- Any and all vehicles owned, used, or hired

3. Workers' Compensation and Employers' Liability

A workers' compensation employers' liability policy naming the contractor/subcontractor as the insured and covering the liability and indemnification obligations assumed by it under this Agreement. This insurance must include coverage for, but not limited to:

- Contractor's/Subcontractor's statutory liability under the workers' compensation laws of the state(s) in which the work or services are to be performed. If optional under state law, the insurance must cover all employees anyway.
- Employers' Liability (Part B) with limits of at least \$1,000,000 each accident, \$1,000,000 by disease policy limit, and \$1,000,000 by disease each employee.
- Contractor/Subcontractor will be responsible for proper and adequate workers' compensation coverage for all subcontracted work and services, and if the

Contractor's/Subcontractor's policy does not cover each such subcontractor, Contractor/Subcontractor will provide certificates of insurance for all subcontractors not covered under Contractor's/Subcontractor's policy by an insurance company acceptable to Railroad.

- Contractor/Subcontractor will submit its workers' compensation and employers' liability policies to Railroad for review.

#### 4. Umbrella or Excess Insurance

Umbrella or excess liability providing coverage over the Commercial General Liability, Automotive Liability, and Employer's Liability policies, with limits of not less than \$5,000,000 combined single limit per occurrence; \$5,000,000 annual aggregate, including additional insured, primary and non-contributory and waiver of subrogation coverage extensions found on the primary policies.

- None of the above-required policies may contain any exclusions for work or operations on or near the Crossing or railroad property, track, or operations.
- Any deductible, self-insured retention, or other financial responsibility for claims must be covered directly by Contractor/Subcontractor. Any and all Railroad liabilities that would otherwise, in accordance with the provisions of this Agreement, be covered by Contractor's/Subcontractor's insurance will be covered as if Contractor/Subcontractor elected not to include a deductible, self-insured retention, or other financial responsibility for claims.
- Each of the above-required policies must include Railroad as an additional insured. The coverage provided to Railroad as additional insured will, to the extent provided under ISO Additional Insured Endorsement CG 20 11, provide coverage for Railroad's negligence whether sole or partial, active or passive, and shall not be limited by County's or Contractor's/Subcontractor's liability under the indemnity provisions of this Agreement.
- Contractor/Subcontractor waives all rights against Railroad and its officers, directors, and employees for recovery of damages to the extent these damages are covered by the commercial general liability insurance, workers compensation and employers' liability, commercial automobile insurance, or commercial umbrella or excess liability insurance obtained by Contractor/Subcontractor.
- Punitive damages exclusion, if any, must be deleted (and the deletion indicated on the certificate of insurance), unless (i) insurance coverage may not lawfully be obtained for any punitive damages that may arise under this Agreement, or (ii) all punitive damages are prohibited by the state in which the Crossing is located.
- All insurance policies must be written by an insurance company acceptable to Railroad or with a current Best's Insurance Guide Rating of A- and Class VII or better and authorized to do business in the state where the Crossing is located.

Losses recoverable by Railroad from Contractor/Subcontractor or any third party will not be limited by the amount of the required insurance coverage.

- Each policy must contain a provision obligating the insurance company to notify Railroad in writing at least 30 days prior to any cancellation, non-renewal, substitution, or material alteration and this cancellation provision must be indicated on the certificate of insurance.

The County has agreed to reimburse Railroad for actual costs associated with the Railroad Work in an amount not to exceed \$45,638.37 ("Contract Maximum"). If any of County's personnel claim they are an employee of Railroad, County will cooperate with Railroad to defeat any such claims, including claims related to the Federal Employers' Liability Act, the Safety Appliance Act, the Locomotive Inspection Act, the Occupational Safety and Health Act, the Comprehensive Environmental Response, Compensation, and Liability Act, the Resource Conservation and Recovery Act, and any similar federal, state, or local law.
- c. Railroad and County each agree that no person will be excluded from employment in violation of any applicable law or regulation.

3. Liability and Indemnity.

- a. Each Party will indemnify and hold harmless the other Party (along with that Party's members, managers, directors, officers, shareholders, employees, representatives, and agents from any damage (including without limitation, costs to tracks, roads, or other facilities owned, controlled, used, or maintained by that Party), disruption (including without limitation, any lost revenue and profits resulting from that disruption), demand, claim, liability (including without limitation, liability arising from injury or death, or damage or destruction of any property or the environment), obligation, loss, cost or expense (including without limitation, court costs, reasonable attorneys' fees, costs of investigation, environmental cleanup and remediation costs, and governmental oversight costs), penalty, interest, assessment, or fine occurring on or related to the Project (collectively, "Losses"), to the extent such Losses arise out of the negligence, gross negligence, or willful acts of that Party or its employees, permittees, invitees, agents, or contractors/subcontractors.
- b. If an indemnification obligation under this Agreement is the result of a third-party claim, action, demand, investigation, lawsuit, dispute, or similar proceeding ("Third Party Claim"), the party obligated to indemnify a Third Party Claim (the "Indemnitor") will, upon written notice from one or more parties entitled to indemnification under this Agreement ("Indemnitees"), assume and control (at its sole cost and expense) the defense of such Third Party Claim; provided, that the Indemnitee(s) have the right (at their sole cost and expense) to participate in the defense of such Third Party Claim. If the Indemnitor does not, within ten business days after an Indemnitee has delivered written notice of the Third Party Claim to the Indemnitor, provide the Indemnitee(s) with written notice that the Indemnitor is undertaking the defense of such Third Party Claim, then the Indemnitee(s) can defend such Third Party Claim at the Indemnitor's sole cost and expense, and the Indemnitor is bound by any determination made in such Third Party Claim or any compromise, settlement, or consent to the entry of judgment with respect to such Third Party Claim. Indemnitor does not have the right to settle or compromise any Third Party Claim, or consent to the entry of judgment, if such settlement, compromise, or

consent to the entry of judgment either (i) fails to include as an unconditional term thereof that the claimant or plaintiff releases all Indemnitees from all liability with respect to such Third Party Claim, or (ii) obligates one or more Indemnitees prospectively to take certain material actions or to refrain from taking one or more material actions.

- c. The Parties acknowledge and agree that County's liability and its ability to indemnify are limited by the provisions of Minnesota Statutes Chapter 466 and/or other applicable law.

- c. County and Railroad will require any contractors or subcontractor working on the Project (i) to maintain insurance coverages detailed on Exhibit C, but this does not relieve any contractor or subcontractor from its indemnification obligations in this Agreement, and (ii) to provide a certificate of insurance evidencing such coverage.

5. Notice

If Railroad has commenced work prior to the termination, this matter may be handled pursuant to Section 6(f).
  - e. Payment upon Termination and Suspension With or Without Cause. The Railroad shall be entitled to payment for all work satisfactorily performed up to the day the termination or suspension takes effect, as determined by the County.
  - f. Completion of the Railroad Work upon Termination or Suspension (With or Without Cause). If Railroad has commenced working, Railroad will be entitled to complete the Railroad Work as efficiently as possible regardless of any termination or suspension described in this Section unless County believes that such working threatens the public safety in which case County and Railroad will work together in good faith to resolve such safety concerns as quickly as possible so the Railroad Work can be completed as efficiently as possible.

  - d. The provisions of this Agreement are intended to be severable. If any provision is deemed invalid/unenforceable, the obligation under that provision is reduced to the extent necessary to be enforceable (and if it cannot be reduced, that provision is

eliminated and the remainder of this Agreement remains enforceable).

- e. This Agreement is the result of mutual negotiations, so the Parties agree neither will be considered the drafter for purposes of contract construction and the Agreement will not be interpreted in favor of, or more strictly against, either Party.
- f. Railroad and County are independent contracting parties and neither Party has any authority to assume or create obligations on behalf of the other Party.
- g. This Agreement will inure to the benefit of the Parties and their respective successors and assigns. Neither Party can assign its rights or delegate its duties under this Agreement (partially or completely) without the other Party's express written consent (which will not be unreasonably withheld).

If a Party is delayed or prevented from performing by reason of earthquakes, landslides, strikes, lockouts, labor troubles, failure of power, riots, epidemic or pandemic, insurrection, war, acts of God, or other reasons beyond its reasonable control (a "Force Majeure"), that Party is excused for the period of delay provided (i) that Party promptly provides notice of the Force Majeure, and (ii) takes reasonable steps to mitigate the impact of the Force Majeure, and (iii) resumes performance as soon as reasonably possible.
- i. A Party's failure or delay to exercise a right or remedy does not constitute a waiver by that Party.
- j. This Agreement is governed by laws of the State of Minnesota without regard to choice of law principles. Each Party (i) agrees that any disputes relating to this Agreement will be venued in the Minnesota State courts located in Hennepin County, Minnesota, and, to the extent applicable, the federal courts located in Minnesota, and (ii) waives any objection to these venues, whether on the basis of inconvenient forum or any other reason.

**REDWOOD COUNTY  
STATE OF MINNESOTA**

**PERMIT AND ROAD USE AGREEMENT  
MINNESOTA ENERGY CONNECTION PROJECT**

**THIS AGREEMENT** (hereafter the “Permit” or the “Agreement”), entered into this \_\_\_\_\_ day of \_\_\_\_\_, 2026, by and between Redwood County (referred to as the “County”), and Northern States Power Company, a Minnesota corporation, and its respective successors and assigns (referred to herein as “Company”) (the County and the Company may be individually referred to herein as a “Party” or collectively as the “Parties”).

**WHEREAS**, the Company has received a Certificate of Need and a Route Permit from the Minnesota Public Utilities Commission for an electric transmission project consisting of, among other things, an approximately 180-mile double-circuit 345 kV electric transmission line, and associated facilities, which is also known as the Minnesota Energy Connection Project (“Project”), a portion of which is located in the County and will involve transportation, installation, and operation of facilities within and adjacent to road rights-of-way that are under the jurisdiction of the County; and

**WHEREAS**, the Minnesota Public Utilities Commission has exclusive and sole jurisdiction to determine the route for electric transmission lines such as the Project, which jurisdiction preempts local land use rules, regulations and ordinances relating to the determination of said route; and

**WHEREAS**, the route permits contain certain conditions, including conditions requiring the Company to: occupy and utilize existing highway and others road rights-of-way to the maximum extent possible when paralleling such rights-of-way; use existing roads for construction activities where practical; cooperate with road authorities to develop appropriate signage and traffic management during construction; obtain and comply with necessary township, county, or state road requirements and permits; minimize and mitigate disruptions to public services and public utilities; and

**WHEREAS**, Company and its contractors have rights to use the road rights-of-way for typical traffic without permit, but also have a need to use road rights-of-way for purposes of hauling equipment and materials, making and using access points, and for crossings; and

**WHEREAS**, the Parties agree that the Company is permitted to use County road rights-of-way and damage to the same may occur, provided that the Company agrees and is obligated to repair any such damages as well as cooperate with the County in developing and implementing appropriate signage and traffic management during construction; and

**WHEREAS**, the Parties wish to memorialize the Company’s permit to use of the rights-of-way, including access points, and its obligation with respect to restoration, signage, and traffic management.

**NOW, THEREFORE**, in consideration of the mutual promises set forth herein, the Parties, intending to be legally bound, agree as follows:

1. **Contacts.** The County initially designates Nick Klisch 507-637-4056 and Jamie Larsen 507-616-6079 (“County Representative”), and the Company initially designates Pete Gitzen (612) 330-7732 and Joe Samuel (612) 337-2338 to be their respective contact persons for purposes of coordinating appropriate signage and traffic management during construction, and to coordinate other aspects of Company’s use of the road rights-of-way. If there are changes to the Contacts of either party, that Party shall inform the other of any such change.
2. **Conditions Evaluation.** The Company shall document the existing conditions of the County road rights-of-way designated as haul roads in section 5.A, below, by a digital method that shall accurately measure and/or depict the existing conditions of the County roads. In making determinations as to whether the Company is responsible for damages, and if so to what extent, the County Representative will treat the Company the same as it would other landowners in terms of both the repairs deemed necessary and the costs of such repairs, and will consider the documentation made by Company prior to and upon completion of its activities in determining the need for maintenance and/or restoration and/or repair and the extent to which costs of the same will be charged to Company.
3. **Restoration.** Pursuant to the Company’s Route Permit, it is obligated to restore the public lands affected by construction of the Project. Without limiting that obligation, in the event that construction activities result in any physical damage to County property, excepting normal wear and tear, including but not limited to driveway entrances in the right-of-way, streets, street sub-grade, base, bituminous surface, gravel surface, curbs, utility systems including but not limited to water mains, sewer mains, air release valves, shut-off valves, septic, well, sanitary sewer or storm sewer, the Company agrees to reimburse the County for the reasonable costs of such work. Following completion of the Company’s work hereunder, Company and the County shall coordinate to determine whether any additional restoration is required hereunder and, if so, to promptly agree upon the appropriate manner of completion thereof and the terms for the Company’s reimbursement therefor.
4. **Enforcement.** If the Company fails to promptly restore any physical damage caused by its construction activities, and if, after the County provides written notice of the same to the Company the damage is not timely repaired, the County may, in its discretion, commence an action in district court to compel the Company to repair the physical damage or to reimburse the County for costs it incurred in repairing the damage. This Section does not prevent the Parties from entering good-faith negotiations to settle the matter prior to filing an action. Any settlement shall be reduced to writing and signed by authorized representatives of the Parties.
5. **County Roads.**
  - A. **Designated Haul Roads.** The Company and its contractors shall utilize as haul roads—those used for hauling heavy construction equipment and materials—only

those roads within the County as designated on attached Exhibit A unless otherwise agreed to in writing by the County Representative.

- B. Coordination. The County will provide instruction as to the appropriate street signs and traffic control signs to be used during construction of the Project. If a road is closed, access to all residences for local traffic and emergency vehicles is required. The Company may restrict a County road to a single lane during daylight hours provided a flag person is present to direct traffic and Company shall coordinate with the County Representative to develop a traffic detour plan as appropriate. The Company and the County will coordinate regarding the need for dust control as a result of the Company's construction traffic on aggregate surfaced roadways and Company will be responsible for the reasonable costs of the same.
  - C. Access Points. The Company may install reasonable access from the County road to each Project site. The Company must take necessary steps to ensure that the access does not unreasonably restrict storm water drainage.
  - D. Wet Conditions. In the event County roads are so saturated with water that the Company's or its contractors' equipment damages the County's roads to the point where such roads become a hazard to the traveling public, the County may request the Company to cease operations on such saturated roads until the roads are dry enough to handle Company's and its contractors' traffic without rendering the roads a hazard to the traveling public. If Company persists in using said roads, Company shall be liable for timely and reasonably repairing any damage and shall take steps to ensure the safety of the roads for the traveling public.
  - E. Load Restrictions: The Company shall abide by all road and bridge load postings. Note that CSAH 2 south of the Company's laydown yard in Sherman Township and all gravel surfaced roadways within Redwood County will be restricted to 5 Tons axel weight when Seasonal Load Limits are in effect. Seasonal Load Restriction map can be found on the County Website: <https://redwoodcounty-mn.us/departments/highway-department/>.
6. **Indemnity.** Except for the negligent or intentionally wrongful acts of the County, its, agents, employees and contractors, Company shall assume all liability for, and save the County harmless and indemnify the County from, any and all third party claims for damages, actions, or causes of action caused by the work to be done pursuant to this Permit.
7. **No Other Permits.** The Parties agree that this Permit is the only permit required for the use of the County's roads and road rights-of-way for the construction, operation, maintenance, and use of the Project except for any driveway access on county roadways that are constructed or modified shall require a permit. Permits can be found on the County website:

<https://redwoodcounty-mn.us/download/8893/?tmstv=1681325511>

8. **Security.** To guarantee compliance with the terms of this Agreement, payment of costs incurred by the County in accordance with this Agreement, or the remediation of any damage caused by Owner's failure to comply with the terms of this Agreement, Owner shall furnish, or cause to be furnished, to the County an irrevocable letter of credit in the amount of \$500,000, which shall be funded at least ten (10) days prior to construction.

9. **Contact and Notification Information.** Any notices to the parties herein shall be in writing, delivered by hand or registered mail addressed as follows to the parties at the following address:

If to County:

With a copy to:

If to Company: Northern States Power Company c/o Peter Gitzen

c/o Siting & Land Rights  
414 Nicollet Mall GO-6A, Minneapolis, MN 55401

And by email to: Patrick Mahlberg (pmahlberg@fredlaw.com)

10. **Waiver.** Any waiver by either Party of any provision shall not imply a subsequent waiver of that or any other provision.

11. **Severability.** The provisions of this Agreement shall be deemed severable. If any part of this Agreement is rendered void, invalid, or unenforceable, such rendering shall not affect the validity and enforceability of the remainder of this Agreement unless the part or parts which are void, invalid, or otherwise unenforceable shall substantially impair the value of the entire Agreement with respect to either Party.

12. **Entire Agreement; Amendments.** This Agreement (including the exhibits attached hereto) constitutes the entire agreement and understanding of the parties with respect to the subject matter hereof and supersedes all prior and contemporaneous agreements, documents and proposals, oral or written, between the parties with respect thereto. Any amendment or modification to this Agreement shall not be valid unless such amendment or modification (i) is in writing and signed by authorized representatives of both parties and (ii) references this Agreement. The terms and conditions of the exhibits are integral parts of this Agreement and are fully incorporated herein by this reference.

**IN WITNESS WHEREOF**, the County and the Company have caused this Permit to be duly executed on the day and year first above written.

FOR YELLOW MEDICINE LYON REDWOOD JOINT DITCH 10

In the matter of the Minor Alteration or Change to Yellow Medicine Lyon Redwood Joint Ditch 10 (590 <sup>th</sup> Street Crossing)	<b>PUBLIC HEARING NOTICE</b>
--	------------------------------

---

PLEASE TAKE NOTICE that the Board of Commissioners of the Yellow Medicine Lyon Redwood Joint County Drainage Authority, acting as the public drainage authority under Minnesota Statutes, chapter 103E (“Drainage Authority”) for Yellow Medicine Lyon Redwood Joint Ditch 10 (“JD 10”), will hold a public hearing on April 7, 2026 at 12:30 p.m., or shortly thereafter as the agenda allows, in the Commissioners’ Room of the Yellow Medicine Government Center, 180 8<sup>th</sup> Avenue, Granite Falls, Minnesota. Members of the Board may participate by using interactive technology from remote locations.

At the public hearing, the Drainage Authority will consider a proposal by the Yellow Medicine County Highway Department to replace the existing 79’ timber slab span bridge with double (2) of 16’x12’ reinforced concrete boxes with end sections, at the Yellow Medicine County 590<sup>th</sup> Street crossing of the JD 10 drainage system, at the west section line of the Northwest Quarter of Section 28, Township 114 North, Range 38 West (Sioux Agency Township), Yellow Medicine County, Minnesota.

The public hearing will be held pursuant to Minnesota Statutes, section 163.17. Pursuant to Minnesota Statutes, section 103E.525, approval of the hydraulic capacity for the changed crossing is being sought by the Direction of the Division of Ecological and Water Resources in the Department of Natural Resources.

The Yellow Medicine County Highway Department and its engineering consultants at Widseth Smith Nolting & Assoc., Inc., have filed a plan showing in detail the alteration or change to replace the existing bridge, and a report of findings that the proposed alteration to the crossing will be a minor alteration or change to the JD 10 drainage system that will not affect or impair the functioning or efficiency of the JD 10 drainage system. A copy of the plan and the engineer’s report of findings is available for public inspection at the Yellow Medicine County Land and Resource Management Office at 1000 10<sup>th</sup> Avenue, Suite #2, Clarkfield, Minnesota 56223, and is available for viewing during normal business hours, or by contacting Yellow Medicine County Ditch Inspector, Chris Balfany at 320-669-7524 or by email at [chris.balfany@co.ym.mn.gov](mailto:chris.balfany@co.ym.mn.gov).

All members of the public are welcome to attend and comment at the public hearing, but the hearing may be of special interest to owners of property affected by JD 10. Written comments

will be accepted by email to [chris.balfany@co.ym.mn.gov](mailto:chris.balfany@co.ym.mn.gov), or by U.S. Mail directed to Yellow Medicine Land and Resource Management Office, Attention: Chris Balfany, Planning and Zoning Administrator/Ditch Inspector, PO Box 675, Clarkfield, MN 56223; or by email to [johnbiren@co.lyon.mn.us](mailto:johnbiren@co.lyon.mn.us), or by U.S. Mail directed to Lyon County Planning and Zoning Department, Attention: John Biren, Planning and Zoning Administrator, 1424 East College Dr. #600, Marshall, MN 56258; or by email to [nick\\_b@redwoodcounty-mn.gov](mailto:nick_b@redwoodcounty-mn.gov), or by U.S. Mail directed to Redwood County Environmental Office, Attention: Nick Brozek, Director of Planning and Environmental Services, PO Box 130, Redwood Falls, MN 56283. ### **Benefits and damages statement**

This report covers the proposed improvement for a previously constructed drainage system. The basis for determining benefits and damages is therefore based upon a comparison of the conditions that would have existed prior to the County tile systems construction, with those that do exist with the drainage system in a reasonable state of repair. Supporting documentation for the analysis and conclusions of the report are contained in our files and are available for inspection. The figures stated herein are based on a full and fair comparison of all pertinent facts and information that we were aware of at the time of this determination process. The following aids were used in this viewing process.

- Redwood County online GIS parcel information site
- USDA Web Soil Survey
- Google Earth aerial satellite photos
- Yield averages taken from USDA National Agriculture Statistics Service.
- Production costs taken from University of Minnesota FinBin
- Average commodity sale prices taken from University of Minnesota FinBin
- Sales data from the Redwood County Assessor office and website
- Visual inspection of each 40-acre parcel or less
- Consultation with Project Engineer and Redwood County Environmental Staff

The Viewers determined that the lands affected by the drainage system are similar and that the following comments refer to all such tracts.

**1. Existing land use, property value, and economic productivity:**

Land is used for building sites, roads, railroad and for agricultural purposes. The property value is consistent with most agricultural land sales within Redwood County. Agricultural lands are primarily used to produce corn and soybeans. The land has good economic productivity when properly drained.

**2. Potential land use, property value, and economic productivity from the drainage system:**

The drainage system has been in existence for many years and provides drainage for agricultural purposes. The property value is consistent with most agricultural land sales within Redwood County. Land affected by the drainage system has the potential to produce above average yields.

**3. The benefits or damages from the drainage system:**

Benefits derived by lands affected by the drainage system are due to (A) Improved capacity to remove surface waters due to construction and maintenance of the County open ditch and County tile system, which results in an increase in the current market value of property; or (B) an increase in the potential for agricultural production as a result of the previous construction and continued maintenance of the drainage system; or (C) increased value of the property as a result of potential different land use.

4. There is no damage to any riparian rights.
5. There are no acres added to any tract or lot and there are no public waters, wetlands, and other areas not currently being cultivated, that are proposed to be drained in this proceeding.
6. There are no acres which before the drainage benefits could be realized would require a public waters work permit to work in public waters under 103G.245 to excavate or fill a navigable water body under United States Code, Title 33, Section 403, or a permit to discharge into waters of United States under United States Code, Title 33, Section 1344.
7. There are no acres being assessed for drainage of areas that would be considered conversion of a wetland under United States Code, Title 16, Section 3821, if the area were placed in agricultural production.

**Redwood County CD-20  
Improvement  
Viewers Report  
March 8, 2026 (Draft)**

**Valuation prior to drainage**

Beginning land use, property value, and economic productivity have been determined with the consideration that the benefited properties within the watershed originally did not have an adequate outlet for artificial drainage.

- “A” – Standing water or cattails, wetland classification with economic productivity for agriculture purposes of \$0 per acre, and a market value of \$2,000 to \$3,000
- “B” – Seasonally flooded/pasture ground. Pasture classification with economic productivity of \$90 per acre based on grazing days and/or hay values, and a market value of \$3,000 to \$6,000.
- “C” – Wet subsoil – Farmable land with moderate crop potential, with annual economic productivity of \$603 per acre based upon average annual yield of 78% of optimum with \$438 production costs, and a market value of \$6,000 to \$8,000.
- “D” – Upland areas not needing much artificial drainage and intermixed with wetter soils, with annual economic productivity of \$680 per acre based upon an average annual yield of 88% of optimum with \$438 production costs, and a market value of \$7,000 to \$9,000.

**Valuation with NRCS recommended drainage**

Potential land use, property value, and an increase in economic productivity, after public and private drainage have been installed as NRCS design standards as recommended in the Minnesota Drainage Guide, using current crop rotation, income, and expense:

- “A” – Drained slough area, medium classification land with economic productivity of \$634 per acre based upon average production of 82% of optimum with \$438 per acre production costs, and a market value of \$6,000 to \$7,000.
- “B” – Well drained ground, high land classification with economic productivity of \$680 per acre based upon average annual production of 88% of optimum with \$438 production costs, and a market value of \$7,000 to \$9,000.
- “C” – Well drained ground, highest land classification with economic productivity of \$711 per acre based upon average annual production of 92% of optimum with \$438 production costs, and a market value of \$8,000 to \$12,000.
- “D” – Well drained ground, high land classification with improved farm ability, with economic productivity of \$734 per acre based upon average production of 95% of optimum with \$438 production costs, and a market value of \$9,000 to \$11,000.

Utilizing these productive values, potential benefit values were determined for the system based upon a 25-year effective life with proper maintenance, private tile improvement cost were depreciated over the same 25-year period, and an allowance of 0.5% return on the system investment. A three-year average County yield was used for the benefit value calculations along with a three-year average sale price for the corn and beans.

The potential benefit values have been reduced to reflect a less than optimum yield. Benefit values were adjusted based on multiple factors. Location to the County tile, drainage coefficient, soil type. All benefits were reduced from the potential benefit value.

**Petition for an Improvement**

A petition for an improvement has been filed for Redwood County CD-20. Redwood County CD-20 was Re-determined in March of 2022. The parcel benefit values have been updated to current yields, input costs, and sale prices. These values reflect a three-year average.

**Summary**

- a. Redwood County CD-20 consists of 4,645.16 acres of farmland, roads, railroad and building sites with benefits of \$2,901,962.
- b. 4,485.76 acres of farmland and building sites in Redwood County in Delhi and Kintire Townships with benefits of \$2,806,871.
- c. 39.10 acres of MN valley Regional Railroad in Redwood County with benefits of \$20,832.
- d. 120.30 acres of County and Township roads with benefits of \$74,259

**Potential Benefit Value**

**Average land benefits**, over a 25-year period are **\$2,220** per acre.

- a. A soil \$3,282
- b. B soil \$2,846
- c. C soil \$1,905
- d. D soil \$847

**Building site benefit**

- a. (Average of B + C + D soils) X 1.5 = **\$2,799**

**Ponds, woodland, and non-benefited acres**

- a. **\$10**

**Road benefits**

- a. Gravel roads, County or Township  
(Average land benefit) X 1.0 = **\$2,220**
- b. Paved roads, County or Township  
(Average land benefit) X 1.5 = **\$3,330**
- c. Paved roads, wide, State or County  
(Average land benefit) X 1.25 = **\$2,775**

**Tile benefits**

- a. A tile benefit was given for most County tile at a rate of \$0.50 per linear foot. (Before improvement) This value was given because of the ease of access for private tile, and for the drainage the County tile may provide. There are 98,560 feet of County tile with **\$49,280 of tile benefits**. If the improvement is implemented, the parcels with new tile will receive a \$2.00 per foot benefit.

**Crop damages**

Crop damages will be paid per acre on standing crops damaged by construction or repair on the County open ditch or County tile system as determined by the Redwood County Drainage Department.

**Determining increased benefits (from the improvement)**

The engineer report states that the current drainage coefficient of CD-20 Main Trunk is 0.05 inches to 0.10 inches per day. Optimum drainage coefficient for tile is 0.50 inches per day. The proposed project will increase the Main Trunk tile drainage coefficient to 0.50+ inches per day. A portion of the main tile will be replaced with an open ditch. All the parcels within the CD-20 watershed will benefit from the increased efficiency of the Main Trunk.

**Redwood County CD-20 Improvement (cost verses benefits)**

The Engineer has estimated the project cost to be \$2,991,513. In accordance with Minnesota Statute 103E.215 Subdivision 6, the repair cost allocation for the project is \$1,457,249. This repair allocation will be assessed to all landowners in CD-20. The improvement portion of the project is \$1,534,264. This amount will be paid by only the landowners that benefit from the improvement. All the landowners in CD-20 will benefit from the improvement at different rates. All estimated assessments for the repair portion of the project and the improvement portion of the project are listed on the excel spreadsheet for the CD-20 improvement.

**Redwood County CD-20 Benefits**

<b>\$4,668,527</b>	<b>After improvement benefits</b>
<b>\$2,901,962</b>	<b>Before improvement benefits</b>
<b>\$1,766,565</b>	<b>Increased benefits</b>
<b>\$1,534,264</b>	<b>Improvement portion of the cost</b>
<b>\$232,301</b>	<b>Difference (The benefits outweigh the cost of the project)</b>

**Temporary damages**

There are temporary damages of 48.20 acres at \$600 per acre. These damages are listed on the Redwood CD-20 spreadsheet.

## Permanent damages

There are permanent damages of 19.43 acres at \$15,000 per acre. These acres are from the construction of the new County Open Ditch. These damages are listed on the Redwood CD-20 spreadsheet.

### **Benefits and damages statement**

This report covers the proposed improvement for a previously constructed drainage system. The basis for determining benefits and damages is therefore, based upon a comparison of the conditions that would have existed prior to the County open ditch and County tile systems construction, with those that do exist with the drainage system in a reasonable state of repair. Supporting documentation for the analysis and conclusions of the report are contained in our files and are available for inspection. The figures stated herein are based on a full and fair comparison of all pertinent facts and information that the viewers were aware of at the time of this process. The following aids were used in this viewing process.

- Redwood County online GIS parcel information site
- USDA Web Soil Survey
- Google Earth aerial satellite photos

- Yield averages taken from USDA National Agriculture Statistics Service.
- Production costs taken from University of Minnesota FinBin
- Average commodity sale prices from Minnesota Finbin
- Sales data from the Redwood County Assessor office and website
- Visual inspection of each 40-acre parcel or less
- Consultation with the Engineer and Redwood County Environmental Office

The Viewers determined that the lands affected by the drainage system are similar and that the following comments refer to all such tracts.

1. **Existing land use, property value, and economic productivity:**  
Land is presently used for building sites, roads, railroad and for agricultural purposes. The property value is consistent with most agricultural land sales within Redwood County. Agricultural lands are primarily used to produce corn and soybeans. The land has good economic productivity when properly drained.
2. **Potential land use, property value, and economic productivity from the drainage system:**  
The drainage system has been in existence for many years and provides drainage for agricultural purposes. The property value is consistent with most agricultural land sales within Redwood County. Land affected by the drainage system has the potential to produce above average yields.
3. **The benefits or damages from the drainage system:**  
Benefits derived by lands affected by the drainage system are due to (A) Improved capacity to remove surface waters due to previous construction and maintenance of the County tile system, which results in an increase in the current market value of property; or (B) an increase in the potential for agricultural production as a result of the previous construction and continued maintenance of the drainage system; or (C) increased value of the property as a result of potential different land use.
4. There is no damage to any riparian rights.
5. There are no acres added to any tract or lot and there are no public waters, wetlands, and other areas not currently being cultivated, that are proposed to be drained in this proceeding.
6. There are no acres which before the drainage benefits could be realized would require a public waters work permit to work in public waters under 103G.245 to excavate or fill a navigable water body under United States Code, Title 33, Section 403, or a permit to discharge into waters of United States under United States Code, Title 33, Section 1344.
7. There are no acres being assessed for drainage of areas that would be considered conversion of a wetland under United States Code, Title 16, Section 3821, if the area were placed in agricultural production.

A petition for an Improvement to Redwood County CD-20 has been received by the Redwood County Drainage Authority. Viewers have been appointed to determine the benefits and damages to all property within the watershed of CD-20. The parcel benefit value is used to calculate a percentage of total benefits. These percentages are then used to determine how much each parcel pays for repairs, maintenance and possible Improvement of the County drainage system.

The Viewers will explain the viewing process and listen to any concerns. The project Engineer will be there to answer questions on the proposed Improvement.

Landowners are encouraged to attend.

### 3. 2026 Strategic Plan:

In 2019, SWHHS developed a strategic plan that was in place from 2020 through 2024, and then extended through 2025. Currently, there is also an active public health strategic plan. We need to develop a new agency wide strategic plan. The purpose of developing a strategic plan for SWHHS is to provide clear direction and shared priorities that strengthen our ability to serve individuals, families and communities. Through this process, we will build on our strengths, respond to emerging needs, and ensure that our services remain respectful, caring and cost-effective. The strategic plan will guide decision-making, resource allocation, and partnerships so that we can continue to deliver high-quality services and achieve meaningful outcomes for those we serve. The most critical element of strategic planning is employee voice. In order to hear from staff, there will be listening sessions in each office in January and February. We are using the SOAR framework to facilitate these.

#### Strategic Planning Timeline:

- **January-February:** Employee and Commissioner listening sessions
- **March-April:** Goal and Objective Development

- **May:** Board Approval
- **June 2026-2030:** Communication, Implementation and Monitoring

##### **2. Human Services-Adult Programs**

- a. PCA transitioning to CFSS on 9/1. There is not an admin fee we can recoup anymore and instead we have to hire consultation service providers. This has created fiscal issues and long waiting periods for people on the program.
- b. Review of waiver spending
- c. Turnover in agency. Waiver programs have had 10 staff leave in 2 years.
- d. By October 2026, DHS is required to develop LTCC service payments that does not rely on a time study for reimbursement. This will have significant impacts to SWHHS reimbursements.
- e. Increasing number of pre-petition screenings and commitments with costly placements.

Section 2 - Special Meetings. Special meetings of the Board may be called by the President alone or by any two (2) Members of the Board for the purpose of transacting any business designated in the call. The call for a special meeting may be delivered at any time prior to the time of the proposed meeting to each Member of the Board or may be mailed to the business or home address of each Member of the Board at least two (2) days prior to the date of such special meeting. #### **ARTICLE IV - CONFLICT OF INTEREST**

Section 1 - General. A Board Member, officer, or employee of the Authority must not acquire any financial interest, direct or indirect, in any project or in any property included or planned to be included in any project sponsored, approved, or facilitated by the Authority. Board Members and other persons retained by the Board may not have any financial interest, direct or indirect, in any contract or proposed contract for materials or services to be furnished or used in connection with any project.

Section 2 - Exceptions. Pursuant to Minnesota Statutes Section 471.88, the following is a list of exceptions when the Authority may contract for goods or services with a Board Member or officer of the Authority who has a financial interest in a project. Approval of this action must be passed by a unanimous vote of the Members present, with the affected Board Member abstaining from the vote on the resolution:

- a. When an officer or a Board Member is employed by a bank or savings association that serves as the Authority's depository or as a source of borrowing and that Board Member does not have an interest either direct or indirect, no restrictions apply. However, if a Board Member or officer does have a direct or indirect interest as a director or an employee of the bank or savings association, he or she must make that disclosure and enter it into the minutes of the Authority. This disclosure serves as notice of the Board Member's interest and does not need to be made on future transactions with that designated financial institution.
- b. When a Board Member of the Authority is employed by a bank that is engaged in making loans or performing trust services involving real or personal property affected by any action of the Authority, there is no restriction that applies to the loans made or trust services performed by the Board Member's bank if he or she discloses the nature of the loans or trust services of which the Board Member has personal knowledge. This disclosure must be entered in the minutes of the Authority.

- c. If the Authority has designated an official newspaper, or publication where it publishes its public notices and minutes, and a Board Member has an interest in the paper, no restrictions shall apply.
- d. If the Authority enters into a contract with a cooperative association where a Board Member is a shareholder or stockholder, but not an officer or manager.
- e. A contract for which competitive bids are not required by law and where the amount does not exceed \$5,000.
- f. When an Authority Board Member is engaged in or employed by a firm that is in the business of importing or exporting or general trade, the Authority may enter into business transactions with the Board Member or the Board Member's employer, provided that the Board Member abstains from voting on any resolution that sets rates affecting shippers or users of an Authority-owned facility.

## **ARTICLE V - EMPLOYEES, SERVICES, AND SUPPLIES**

Section 1 - Outside Service Providers. The Authority may employ an executive director, a chief engineer, other technical experts, agents, and other employees as it may require. The Board shall determine such duties, qualifications, and compensation. The Authority may contract for the services of consultants, agents, public accountants, and other persons needed to perform its duties and exercise its powers. The Authority may, with the approval of the Redwood County Board of Commissioners, use the services of the Redwood County Attorney or hire outside general counsel for its legal needs.

Section 2 - County Facilities and Services. The Authority may utilize the County purchasing department in connection with construction work and to purchase equipment, supplies, and materials. The County may furnish offices, structures, and space, stenographic, clerical, engineering, and other assistance to the Authority in order for it to perform its duties and to carry out its powers.

Section 3 - Delegation. Unless otherwise specified in these Bylaws, the Authority may delegate to one or more of its agents or employees powers or duties it may deem proper.

## **ARTICLE VI - DEPOSITORIES**

Section 1 - Depository Bank. Every two years, the Authority must name a national or state bank within Minnesota as depository for its funds, which selected institution shall be ratified by a vote of the Redwood County Board of Commissioners. The bank must give the Authority a bond approved as to form and surety by the Board. The bond must state the conditions for the safekeeping and the prompt repayment of deposits. The amount of the bond must be at least equal to the maximum amounts expected to be deposited by the Authority at any one time.

Section 2 - Liability. When the Authority funds are deposited by the Secretary/Treasurer in a bonded depository, the Secretary/Treasurer and the surety on the Secretary/Treasurer's official bond are exempt from liability for the loss of the deposits because of the failure, bankruptcy, or other act or default of the depository bank. However, the Authority may accept collateral from the depository bank to secure the deposits, just as assignments of collateral are permitted by law to secure deposits of the County.

## **ARTICLE VII - BUDGET, FISCAL YEAR, TAXES, AUDITS & REPORTS**

Section 1 - Fiscal Year and Budgeting. The Authority's fiscal year shall be the same as the County's fiscal year. The Authority must annually submit its budget to the Redwood County Board of Commissioners in a time frame that matches the County's normal budget cycle. This budget will include a detailed written estimate of the amount of money that the Authority expects to need from the County during the next fiscal year. The Authority must submit a detailed annual report to the County outlining its activities, receipts, and expenditures during the preceding calendar year. This report may also include other matters and recommendations that the Authority deems advisable for the economic development of the County.

Section 2 - Funding. The Authority shall have the ability to receive funding from virtually any source, public and private, including the general funds of the County. In addition, the Authority may utilize administrative fees from loan or grant agreements, guarantees, or other credit enhancements, and may accept contributions from local businesses, individuals, or organizations.

## **ARTICLE VIII - COUNTY LEVY OF TAXES FOR THE AUTHORITY**

Pursuant to the enabling resolution, the County may, at the request of the Authority, levy a tax in any year for the benefit of the Authority in an amount not to exceed the limits imposed by Minnesota law.

## **ARTICLE IX - AUDIT AND REPORTS**

The financial statements of the Authority must be prepared, audited, filed, and published or posted in the manner required for the financial statements of the County. The financial statements must permit a comparison and reconciliation with the County's accounts and financial reports. The report must be filed with the State Auditor by June 30th of each year, or as otherwise required by law.

## **ARTICLE X - GENERAL POWERS OF AUTHORITY**

The benefit of the Authority rests in its ability to easily and flexibly accomplish a wide range of development and redevelopment objectives. Pursuant to the enabling resolution passed by the Redwood County Board of Commissioners on September 7, 2004, the Board acknowledges that the following limits shall apply to the Authority and its operation.

- a. The sale of bonds or other obligations issued by the Authority shall be first approved by the Redwood County Board of Commissioners.
- b. The Authority shall follow the budget and funds handling process established for the County departments as provided by the Redwood County Board of Commissioners and in accordance with all County policies.
- c. Development and redevelopment actions of the Authority shall be consistent with the Redwood County Comprehensive Plan and official controls implemented therein.
- d. The Authority shall submit its proposed plans for development and redevelopment to the Redwood County Board of Commissioners for approval in accordance with County planning procedures, ordinances, and law.
- e. The administrative structure, management practices, and policies of the Authority must be approved by the Redwood County Board of Commissioners.
- f. The Authority shall deposit special levy certification funds for economic development purposes in designated fund accounts created by The County, and administered by the Redwood County Auditor/Treasurer, for receipting proceeds related to economic development activity.
- g. The Authority must submit to the Redwood County Board of Commissioners a detailed annual report outlining its activities, receipts, and expenditures during the preceding calendar year, and shall include a description of current and proposed projects as well as general development goals for the County.

#### **ARTICLE XI - ETHICS**

As an elected or appointed official of a county or of an agency, authority, or instrumentality of a county, who have the authority to make recommendations or decisions regarding the expenditure or investment of money, the Board Members are subject to the gift restrictions provided in Minnesota Statutes Section 10A. **Administrators Comments:**

Dyan and her partner Cally have provided excellent legal guidance for the county's labor matters and I am recommending we continue business with them in their new firm. In 2025, Dyan and Cally presented a full day of supervisor training to the Redwood County Department heads and supervisors and staff were appreciative of their guidance.
